## Users' Guide to the Hazardous Waste Carrier Registration Form

### Section 1 – Identification

Provide the carrier's full legal name and contact information. The legal name of the Company as it is registered in Nunavut is to be provided. The corporate and site (dispatch) addresses are to be provided if they are not the same. If the carrier is located in a remote area (i.e. mining camp), provide the geographic coordinates (UTM and Latitude/Longitude) and name of the most prominent nearby geographic feature (i.e. "Sam Hill Bay").

### Section 2 – Description of Waste Transported

**Shipping Name, TDG Number and TDG Class.** Provide the proper shipping name, TDG Number and TDG Class in accordance with the federal *Transportation of Dangerous Goods Act and Regulations*. This is the same shipping name, number and class that must be recorded on the manifest form or movement document.

**Quantity Transported.** Provide the estimated average quantity of each waste transported during a single monthly period. Liquid wastes are reported in litres (L) while solid wastes are reported in kilograms (Kg). For one-time only transport of waste, provide the actual quantity to be transported in litres or kilograms.

**Frequency of Transport.** Enter the appropriate code from the following list which best describes the frequency at which each waste is transported – ongoing, intermittent or one-time only.

### Section 3 – Waste Management Information

**Mode of Transport.** Identify the mode of transport used. Check all that apply.

**Hazardous Waste Generator(s) Used.** Only generators that have been registered in Nunavut or the province or territory in which the company is based may transfer hazardous waste to another party. Provide the name and registration number of each known company from which waste will be transported. If applying for registration in anticipation of transporting waste at an unspecified future time, provide this information at a later date.

**Hazardous Waste Receiver(s) Used.** Only receivers and hazardous waste management facilities that have been registered in Nunavut or the province or territory in which the company is based may receive hazardous waste. Provide the name and registration number of each known company that will receive the transported waste. If applying for registration in anticipation of transporting waste at an unspecified future time, provide this information at a later date.

**Emergency Response and Spill Contingency Plan.** An Emergency Response and Spill Contingency Plan sets out the contacts, equipment and procedures to be used in the event of a spill or accident involving dangerous goods or hazardous waste. Provide a copy of your company's plan if one has been developed. Plans in electronic format are preferred.

### Section 4 – Certification

The carrier's contact person or authorized representative must sign and date the form to certify the information provided is correct, accurate and complete. Include the date and person's signature, printed name, position title, phone number and email address.

Use additional pages as required in order to provide complete information.
