**THE HONOURABLE NELLIE T. KUSUGAK  
COMMISSIONER OF NUNAVUT**

I have the honour to present the Public Accounts of Nunavut for the fiscal year ended March 31, 2017. I would ask that these accounts be laid before the Legislative Assembly in accordance with the *Financial Administration Act*, R.S.N.W.T. 1988, c.F-4, S. 74 as amended, and duplicated for Nunavut, and the *Nunavut Act*, S.C. 1993, C.28, s.44.

The Honourable Keith Peterson  
Minister of Finance

## MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The preparation of these consolidated financial statements for the Government of Nunavut, and related information contained in the Public Accounts, is the responsibility of management through the Department of Finance.

The consolidated financial statements have been prepared in accordance with Canadian public sector accounting standards (PSAS), which represent generally accepted accounting principles for governments as recommended by the Public Sector Accounting Board of Canada. Where Canadian PSAS permits alternative accounting methods, management has chosen those it believes are most appropriate. Where required, management's best estimates and judgments have been applied in the preparation of these consolidated financial statements.

The Government fulfills its accounting and reporting responsibilities, through the Department of Finance, by maintaining systems of financial management and internal control. Where necessary, these systems are enhanced and modified to support the provision of accurate information, safeguarding and control of the Government's assets, and ensuring all transactions are in accordance with Nunavut's *Financial Administration Act*.

The Public Accounts are referred to the Standing Committee on Oversight of Government Operations and Public Accounts after they have been tabled in the Legislative Assembly. The recommendations of this Committee will be reviewed and acted upon, where appropriate, to improve financial management, financial reporting practices and the systems of internal control.

The Auditor General of Canada conducts an annual audit of the consolidated financial statements and provides an independent opinion to the Legislative Assembly as to whether the consolidated statements present fairly, in all material respects, the financial position, results of operations, changes in net financial assets and cash flows for the year then ended in accordance with Canadian public sector accounting standards. During the course of the audit, he also examines transactions that have come to his notice to ensure that they are, in all significant respects, within the statutory powers of the Government and those organizations included in the consolidation. The Auditor General's opinion is included with the consolidated financial statements.

Jeff Chown, CPA, CA  
Deputy Minister of Finance

Peter Tumilty, FCPA, FCGA  
Comptroller General

October 26, 2017

## INDEPENDENT AUDITOR'S REPORT

To the Legislative Assembly of Nunavut

### Report on the Consolidated Financial Statements

I have audited the accompanying consolidated financial statements of the Government of Nunavut, which comprise the consolidated statement of financial position as at 31 March 2017, and the consolidated statement of operations and net assets, consolidated statement of change in net financial assets and consolidated statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### *Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

My responsibility is to express an opinion on these consolidated financial statements based on my audit. I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

*Opinion*

In my opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Government of Nunavut as at 31 March 2017, and the results of its operations, changes in its net financial assets, and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

**Report on Other Legal and Regulatory Requirements**

In my opinion, the transactions of the Government of Nunavut and those organizations listed in Note 1 to the consolidated financial statements that have come to my notice during my audit of the consolidated financial statements have, in all significant respects, been in accordance with the Government of Nunavut's powers under the *Nunavut Act*, the *Financial Administration Act* of Nunavut and regulations and the specific operating authorities disclosed in Note 1 to the consolidated financial statements.

A handwritten signature in black ink, appearing to read "Michael Ferguson". The signature is fluid and cursive, with a prominent flourish at the end.

Michael Ferguson, CPA, CA

---

**1 AUTHORITY AND OPERATIONS**

**(a) Authority**

The Government of Nunavut (the Government) operates under the authority of Canada's *Nunavut Act*. The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments, except those specifically authorized by statute.

These consolidated financial statements are prepared to meet the financial reporting requirements in Canada's *Nunavut Act* and Nunavut's *Financial Administration Act*. The consolidated financial statements present summary information and serve as a means for the Government to show its accountability for the resources, obligations and financial affairs for which it is responsible.

**(b) Reporting entity**

The reporting entity of the Government of Nunavut includes all departments, agencies, corporations, organizations and funds, which are controlled by the Government. For financial reporting purposes, control is defined as the power to govern the financial and operating policies of an organization with benefits from the organization's activities being expected, or the risk of loss being assumed by the Government. All organizations that meet the definitions in the *Financial Administration Act* for departments, revolving funds, territorial corporations or other public agencies are included in the reporting entity for these consolidated financial statements, except for the Workers' Safety and Compensation Commission (WSCC).

The WSCC, which is responsible for the administration of related employer insurance premiums and employee benefit programs within Nunavut, is not accounted for in these consolidated financial statements. Since the Government does not control or have access to the WSCC's assets or responsibility for its obligations, it is excluded from the Government's financial reporting entity.

The following organizations comprise the reporting entity of the Government for these consolidated financial statements, and unless indicated otherwise, they have March 31 year ends.

Consolidated Revenue Fund, including those departments and public agencies set out in the Government's Main Estimates

Revolving Funds

Liquor Revolving Fund

Petroleum Products Revolving Fund

Public Stores Revolving Fund

Student Loan Fund

Territorial Corporations

Nunavut Arctic College (NAC) (*June 30*)

Nunavut Business Credit Corporation (NBCC)

Nunavut Development Corporation (including subsidiaries) (NDC)

Nunavut Housing Corporation (including subsidiaries) (NHC)

Nunavut Lottery

Qulliq Energy Corporation (QEC)

District Education Authorities (*June 30*)

**Authority for Operations**

*Financial Administration Act*

*Revolving Funds Act*

*Nunavut Arctic College Act*

*Nunavut Business Credit Corporation Act*

*Nunavut Development Corporation Act*

*Nunavut Housing Corporation Act*

*Partnership agreement*

*Qulliq Energy Corporation Act*

*Education Act*

All entities included in the reporting entity, except Nunavut Lottery, are fully consolidated on a line-by-line basis. Significant transactions and balances between fully consolidated entities are eliminated. Nunavut Lottery is accounted for as a government business partnership on a modified equity basis.

For segmented disclosure reporting purposes (disclosed in Schedule C), summary information has been provided based on the accountability and control relationships between the Government and the various organizations within the reporting entity using categorization or groupings of organizations noted above.

**(c) Budget**

Canadian public sector accounting standards require a government to present in its consolidated financial statements a comparison of the results of operations and changes in net financial assets (debt) for the period with those originally planned.

The Government's annual budget presented to the Legislative Assembly is not prepared on a consolidated basis. As a result, the budget figures included in these consolidated financial statements are based on the summary totals provided on pages x through xiii of the 2016-2017 Main Estimates and the approved annual budgets for the consolidated entities, adjusted to eliminate budgeted inter-entity revenues and expenses as well as significant accounting policy differences. Where necessary, assumptions were used to estimate the inter-entity eliminations and accounting policy adjustments required. There was a \$30,000 provision for centrally estimated 'Supplementary requirements' included in the 2016-2017 Main Estimates, \$20,000 of which was designated for 'extraordinary/unforeseen events'. For purposes of consolidated budget disclosure in these consolidated financial statements that part of the provision has been included in the Finance expense budget. The other \$10,000 of the provision has been allocated to department budget totals based on total supplementary appropriations for the year.

## **2 SIGNIFICANT ACCOUNTING POLICIES**

### **(a) Basis of accounting**

These consolidated financial statements are prepared in accordance with Canadian public sector accounting standards (PSAS) as issued by the Public Sector Accounting Board of Canada.

### **(b) Use of estimates and measurement uncertainty**

The preparation of consolidated financial statements in accordance with Canadian PSAS requires government management to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the consolidated financial statements. By their nature, these estimates and assumptions are subject to measurement uncertainty. The effect on the consolidated financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these consolidated financial statements, management believes the estimates and assumptions to be reasonable.

The more significant management estimates relate to other employment benefit liabilities, liability for contaminated sites, contingencies, revenue accruals, amortization expenses, useful life of tangible capital assets and valuation allowances on loans and other receivables.

### **(c) Cash and cash equivalents**

Cash and cash equivalents are comprised of bank account balances, net of outstanding cheques, and short term highly liquid investments that are readily convertible to cash with a maturity term of 3 months or less from the time of their acquisition. Cash equivalents are recorded at cost. Short term investments are recorded at the lower of cost or market value.

### **(d) Portfolio and other investments**

Portfolio and other investments are long term investments in organizations that do not form part of the government reporting entity and are accounted for at cost. Where there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment is written down to recognize the loss, which is included as a component of investment income, which is part of other revenues within revenues generated by the Government of Nunavut. Interest income is recorded on an accrual basis, dividend income is recognized as it is declared, and capital gains and losses are recognized when realized.

### **(e) Inventories**

Inventories for resale include bulk fuels, liquor products, finished goods and packaging materials and supplies. Bulk fuels, finished goods and packaging materials and supplies are valued at the lower of weighted average cost or net realizable value. Liquor products are valued at the lower of cost or net realizable value on a first-in, first-out basis.

Inventories for use include fuel, supplies and lubricants, health and medical supplies, and raw materials and work in progress. Fuel inventory is valued at the lower of cost or replacement cost, with the cost being determined on a weighted average basis. Supplies and lubricants, health and medical supplies, as well as raw materials and work in progress inventory items are valued at the lower of cost or replacement costs, with the cost being determined on a first-in, first-out basis.

### **(f) Loans receivable**

Loans receivable are valued at the lower of cost or net recoverable value. Based on the circumstances known at the date the consolidated financial statements are prepared, including past events and current conditions, valuation allowances are recorded when collection is considered doubtful or when the value of a loan receivable is impaired. Interest revenue is recorded on an accrual basis when the collectability of both principal and interest are reasonably assured. An uncollectable or impaired loan receivable balance can be written off only upon receipt of required statutory approvals.

### **(g) Tangible capital and leased assets**

Tangible capital assets are non-financial assets whose useful life exceeds one fiscal year and are intended to be used on an ongoing basis for delivering government services. They may include such diverse items as buildings, vehicles, equipment, aircraft and computer hardware and software systems.

Tangible capital assets are recorded at cost or, where actual cost is not available, estimated current replacement cost is used. Gifted or contributed tangible capital assets are recorded at fair market value upon receipt, or a nominal value if fair value is not available.

Leased buildings that meet the definition of a tangible capital asset, except that they are held under lease by the Government, are capitalized and reported as such if, in substance, their terms and conditions transfer substantially all of the benefits and risks of ownership to the Government. Legal ownership may not necessarily have been transferred. The lease liability and corresponding asset are recorded based on the present value of payments due over the course of the lease. The present value is based on the lower of the rate implicit in the lease or the Government's incremental borrowing rate at the time the obligation is incurred.

---

**GOVERNMENT OF NUNAVUT**  
**PUBLIC ACCOUNTS**  
**Notes to Consolidated Financial Statements**

---

March 31, 2017

(in thousands of dollars)

---

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(g) Tangible capital and leased assets (continued)**

Tangible capital assets, when placed into service, are amortized over their useful lives using the straight line method. When assets are leased, the amortization rate will be based on the lesser of the lease terms or the useful lives of the leased assets. The following amortization rates are being used:

<b>Asset Category</b>	<b>Amortization Period</b>
Buildings	20-30 years
Leased Buildings	20-30 years
Storage Facilities	30 years
Tank Farms	30 years
Equipment	5-30 years
Warehouse and Equipment (QEC)	1-45 years
Electric Power Plants	20-40 years
Transmission Distribution Systems	15-40 years
Infrastructure	30 years
Land	Not amortized

When conditions indicate that a tangible capital asset no longer contributes to the Government's ability to provide goods and services, or that the value of future economic benefits associated with the tangible capital asset is less than its net book value, the cost of the tangible capital asset is reduced to reflect the decline in the asset's value.

In the year a tangible capital asset is acquired or put into service, amortization is taken for the full year. Tangible capital assets under construction or development are recorded as work in progress with no amortization taken until the year the asset is placed into service.

Assets acquired by right, such as Crown lands, water and mineral resources, are not recorded in the consolidated financial statements. The cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints and photographs are charged to expense in the year they are acquired.

**(h) Pension and other employment benefits**

Pension benefits

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut to cover current service costs. Pursuant to legislation currently in place, the Government of Nunavut has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, the Government of Nunavut's contributions are recognized as an expense in the year when employees have rendered service and represent the total pension obligation of the Government of Nunavut.

In addition, the Government provides two different pension benefits to Members of the Legislative Assembly. The costs and obligations of the Government for these pension plan benefits are estimated on an actuarial basis. When actual experience varies from estimates, or when actuarial assumptions change, actuarial gains or losses arise. These gains and losses are not recognized immediately but rather over the estimated average remaining service lives of the contributors. Recognition of actuarial gains and losses commences in the year following the effective date of the related actuarial valuations. In addition, upon a plan amendment, curtailment or settlement, previously unrecognized net actuarial gain or loss balances will require immediate recognition.

Other employee benefits

Under the terms and conditions of employment, Government employees may earn severance and removal benefits based on years of service. These benefits are paid upon resignation, retirement or death of the employee. Further, employees, upon retirement, are entitled to enroll in health and dental benefit programs, the cost of which are cost-shared by government. The estimated liability and related expenses for these benefit programs are recorded as employees earn them. Actuarial valuation estimates of the government's obligations and related costs for each of these benefit programs have been prepared using data provided by management and assumptions based on management's best estimates. Termination benefits are recorded when employees are identified for lay-off.

The Government's employees are entitled to sick leave under their terms of employment. Included in other employee benefits is an amount for employees who are permitted to accumulate unused sick leave. However, such entitlements do not vest and can be used only in the event of illness. The amount of accumulated sick leave entitlements which are expected to be used in future years is determined by an actuarial valuation and has been recorded in these consolidated financial statements.

**PUBLIC ACCOUNTS**  
**Notes to Consolidated Financial Statements**

---

March 31, 2017

(in thousands of dollars)

---

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(i) Revenues**

Unless otherwise stated, all revenues are recognized and reported on an accrual basis in the period in which transactions or events give rise to the revenues. Specific revenue accounting policies are as follows:

Transfers from the Government of Canada

Transfers from the Government of Canada are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability and is recorded as deferred revenue.

Taxes

Tax revenues are recognized in the period in which the taxable event occurs and when they are authorized by legislation or the ability to assess and collect the tax has been provided through legislative convention. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Tax concessions transferred to taxpayers include the Nunavut child tax benefit, the cost of living tax credit and the business training tax credit. Taxes, under the *Income Tax Act*, are collected by the Government of Canada on behalf of the Government of Nunavut under a tax collection agreement and are remitted to the Government. The remittances are based on the Government of Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are finalized. These income tax adjustments are accounted for in the year known.

Fuel, tobacco and payroll taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act* and the *Payroll Tax Act*, respectively. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Tobacco tax commissions on tobacco tax revenue provides a financial benefit other than a relief of taxes and is recorded as an expense.

Property taxes are assessed on a calendar year basis and are recorded on an accrual basis in the fiscal year.

Other taxes are accrued based on information provided by those parties which collect tax on the Government's behalf.

Recoveries of prior years expenditures

Recoveries of prior years expenditures through the Consolidated Revenue Fund, including reversals of prior years expenditure over-accruals, are reported as revenues in the consolidated financial statements. Pursuant to the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures through the Consolidated Revenue Fund.

**(j) Expenses**

Expenses are recorded on an accrual basis when goods are received or services are rendered.

Grants and contributions are recognized as expenses provided that the transfer is authorized and all eligibility criteria have been met by the recipient. Grants and contributions include transfer payments to individuals, municipalities and other organizations under government funding arrangements. Payments to individuals include payments for children's benefits, income support or income supplement. These payments are based on age, family status, income and employment criteria. Other grants and contributions are provided to conduct research, to establish new jobs through support for training and to promote educational, health and cultural activities.

**(k) Contingencies**

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur or fail to occur and is quantifiable, an estimated liability is accrued as part of accounts payable and accrued liabilities. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed in the notes to the consolidated financial statements and no liability is accrued. Contingent liabilities result from potential environmental contingencies or pending litigation and like items.

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(l) Contaminated sites**

Contaminated sites are the result of contamination being introduced into air, soil, water or sediment in concentrations that exceeds the maximum acceptable amounts under an environmental standard.

A liability for remediation of a contaminated site is recognized when all of the following criteria are met:

- an environmental standard exists;
- contamination exceeds the environmental standard;
- the Government is directly responsible or accepts responsibility;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

The liability for contaminated sites reflects the government management's best estimate of the amount required to remediate sites to the current minimum standard for its use prior to the contamination.

The liability is recognized net of any expected recoveries and includes all costs directly attributable to remediation activities including post remediation operations, maintenance and monitoring.

The liability is adjusted each year for the passage of time, new obligations, changes in management estimates and actual costs incurred.

If the likelihood of a future event that would confirm the Government's responsibility is not determinable, a contingent liability is disclosed in the notes to the consolidated financial statements.

**(m) Future changes in accounting standards**

A number of new and amended standards issued by the Public Sector Accounting Board of Canada are not yet effective and have not been applied in preparing these consolidated financial statements. The Government plans to adopt these new and amended standards on their effective dates and is currently assessing the impact they will have on its consolidated financial statements. The following standards for governments will become effective as follows:

*PS 2200 Related Party Disclosures (effective April 1, 2017)*, a new standard establishing disclosure requirements for related party transactions.

*PS 3210 Assets (effective April 1, 2017)*, a new standard providing guidance for applying the definition of assets set out in *PS 1000 Financial Statement Concepts*.

*PS 3320 Contingent Assets (effective April 1, 2017)*, a new standard establishing disclosure requirements for contingent assets.

*PS 3380 Contractual Rights (effective April 1, 2017)*, a new standard defining and establishing disclosure requirements for contractual rights.

*PS 3420 Inter-Entity Transactions (effective April 1, 2017)*, a new standard establishing guidance on how to account for and report transactions between public sector entities that comprise a government's reporting entity from both a provider and a recipient perspective.

*PS 3430 Restructuring Transactions (effective April 1, 2018)*, a new standard defining a restructuring transaction and establishing guidance for recognizing and measuring assets and liabilities transferred in a restructuring transaction.

*PS 2601 Foreign Currency Translation (effective April 1, 2019)*, replaces PS 2600 with revised guidance on the recognition, presentation and disclosure of transactions and balances that are denominated in a foreign currency.

*PS 3450 Financial Instruments (effective April 1, 2019)*, a new standard establishing guidance on the recognition, measurement, presentation and disclosure of financial instruments, including derivatives.

*PS 1201 Financial Statement Presentation (effective in the period PS 3450 and PS 2601 are adopted)*, replaces PS 1200 with revised general reporting principles and standards of presentation and disclosure for government financial statements.

*PS 3041 Portfolio Investments (effective in the period PS 3450, PS 2601 and PS 1201 are adopted)*, replaces PS 3040 with revised guidance on accounting for, and presentation and disclosure of, portfolio investments.

**(n) Services provided without charge**

The Government of Nunavut receives audit services at no charge from the Office of the Auditor General of Canada. That Office's costs for these services have not been recorded in these consolidated financial statements.

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(o) Restatement of Retirement health benefits liability**

All employees are entitled to, upon retirement, enroll in health and dental benefit programs, the cost of which are cost-shared by the government. Due to the nature of these benefits, actuarial valuations are required to estimate the Government's liability with respect to the health and dental benefits of the retirees.

The Government of Nunavut has reviewed its approach for the evaluation, accounting and reporting of retirement health benefits. In the past, the Government of Nunavut recognized health and dental benefits when they were paid, and no liability was recorded in the consolidated financial statements as it was not considered significant. In fiscal year 2017, an actuarial valuation was performed to measure the estimated liability. As a result of this valuation, the Government of Nunavut has recorded for the first time a liability in the consolidated financial statements for retiree health benefits, with retroactive restatement of comparative years.

As a result of this restatement, the opening balance of liabilities for pension and other employee benefits has increased by \$16,951, net assets and the beginning balance of net assets of the Government of Nunavut have decreased by \$16,951. The 2016 consolidated financial statements have been restated as follows:

<b>Liabilities for pension and other employee benefits</b>	
As previously reported	49,015
Adjustment to opening liabilities for pension and other employee benefits	15,648
<u>Adjustment of compensation and benefits expense</u>	<u>1,303</u>
	<u>65,966</u>
<b>Net Assets</b>	
Beginning of year, as previously reported	2,334,534
Adjustment of opening liabilities for pension and other employee benefits	(15,648)
	<u>2,318,886</u>
<b>Expenses - Finance</b>	
As previously reported	182,205
<u>Adjustment of compensation and benefits expense</u>	<u>1,303</u>
	<u>183,508</u>

**3 CASH AND CASH EQUIVALENTS**

	<b>2017</b>	<b>2016</b>
Cash	704,188	634,412
Designated cash	3,572	3,049
	<u>707,760</u>	<u>637,461</u>

Designated cash represents funds reserved for further investments or financing for subsidiary business enterprises and venture investments.

The cash and cash equivalents yield for the year ended March 31, 2017 varied from 0.20% to 1.05% (2016 - 0.50% to 0.95%).

**4 PORTFOLIO AND OTHER INVESTMENTS**

	2017	2017	2017	2016
	Effective Rate of Return	Term to Maturity	Carrying Value	Carrying Value
<b>Portfolio investments</b>				
Provincial Governments	1.04% - 2.38%	33 days - 3 years	32,244	5,864
Various Bankers' Acceptance	0.20% - 2.80%	37 - 365 days	84,565	110,976
			116,809	116,840
<b>Other investments</b>				
SRAF designated investments			15,288	13,442
Venture investments			1,340	1,492
			133,437	131,774

The market value of the portfolio investments at March 31, 2017 was \$116,543 (2016 - \$116,183).

The Supplementary Retiring Allowances Fund of the Legislative Assembly (SRAF) designated investments represent funds set aside within the Consolidated Revenue Fund for use in meeting SRAF benefit obligations. The investments are managed by a third party. The Statement of Investment Policy establishes the eligible classes of securities, categories of issuers, limits and terms. The market value of SRAF investments at March 31, 2017 was \$18,385 (2016 - \$14,934) with a positive return of 15.17% (2016 - negative 1.83%).

Due to the Government of Canada	30,146	18,870
Trade and other account payables	154,776	153,771
Accrued liabilities, payroll deductions and contractor holdbacks	112,544	143,780
Vacation pay and lieu time	39,355	37,113
	<b>336,821</b>	<b>353,534</b>

All amounts above are non-interest bearing.

<b>10 DEFERRED REVENUES</b>	<b>2017</b>	<b>2016</b>
Provincial-Territorial Base Funding (Building Canada Fund)	9,749	13,004
Gas Tax Agreement	36,023	41,339
CMHC - Investment in Affordable Housing Program	32,725	3,636
Other deferred revenue	31,580	10,862
	<b>110,077</b>	<b>68,841</b>

The deferred revenue balance at March 31 includes mostly funding for eligible capital infrastructure projects and specific programs received from the Government of Canada under formal contribution or other agreements. In 2017-18 and beyond, as the government fulfills its obligations for purpose or other stipulations on the use of these funds the associated revenue will be recognized in its consolidated financial statements.

<b>11 LIABILITY FOR CONTAMINATED SITES</b>	<b>2017</b>	<b>2016</b>
Liabilities for remediation of contaminated sites	8,374	8,421
	<b>8,374</b>	<b>8,421</b>

The Government's activities are subject to various federal and territorial laws and regulations, such as the *Environmental Protection Act* of Nunavut and the Environmental Guideline for Contaminated Site Remediation - 2010, governing the protection of the environment or to minimize any adverse impact thereon. The Government conducts its operations so as to protect public health and the environment and believes its operations are in compliance with applicable laws and regulations.

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which it is responsible. As of March 31, 2017, there were 7 sites - 2 storage tank farms (2016 - 2), 4 waste sites (2016 - 3 sites) and 1 school site (2016 - nil) identified as requiring environmental remediation. For those sites where the Government of Nunavut expects to give up future economic benefits due to a legal order or plans to remediate contamination (e.g., due to the risk to human health), and is responsible or has accepted responsibility for remediation, and a reasonable estimate can be determined for remediation costs, a liability has been recorded in these consolidated financial statements.

**GOVERNMENT OF NUNAVUT**  
**PUBLIC ACCOUNTS**  
**Notes to Consolidated Financial Statements**

**March 31, 2017**

*(in thousands of dollars)*

**11 LIABILITY FOR CONTAMINATED SITES (continued)**

The Government has identified an additional 71 (2016 - 71) sites on Commissioner's land for which liabilities for contamination may exist for assessment, remediation and monitoring. The activities associated with these sites are classified as follows:

	<b>2017</b>	<b>2016</b>
Storage tank farms	26	26
Power plants	26	25
Town and waste sites	11	11
Garages and other public works	5	6
Airports	2	2
Quarries	1	1
	<u>71</u>	<u>71</u>

The Government acquired ownership of sites and activities associated with airports, tank farms and power plants on creation of the Territory on April 1, 1999. The contamination of certain sites occurred when other parties were responsible for the use of and/or held tenure to the sites. The Government has estimated that remediation of contamination at 14 storage tank farm sites and 25 power plant sites (2016 - 14 and 24) would cost approximately \$9,700 and \$38,400 (2016 - \$9,700 and \$40,600) respectively. In addition, the Government has estimated that remediation at the other sites could cost between \$55,000 - 126,000 (2016 - \$55,000 - 126,000) depending on the approach taken. No liability for remediation of these 71 sites has been recognized in these consolidated financial statements as the Government does not expect to give up any future economic benefits (i.e. no legal requirement to remediate). Going forward, a liability for remediation of these or other identified sites will be recognized if future economic benefits will be given up (i.e. public health risk or legal requirement).

Most storage tank farms and power plants are monitored on a regular basis to ensure the containment of the identified contaminants. For the other Government of Nunavut's operations and/or sites, there is no ongoing monitoring program in place, but plans for one are to be developed in the near future.

In addition, the Government has identified 143 (2016 - 140) sites where garages, public works facilities, quarries, sewage disposal/treatment and solid waste sites and activities are generally located and conducted within municipal boundaries and governed by municipal legislation. Contamination at these sites and activities within municipal boundaries and jurisdiction are the responsibility of municipalities to monitor and remediate if necessary.

**12 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS**

There are separate pension arrangements in place to provide retirement benefits to government employees and to Members of the Legislative Assembly (MLAs). In addition to pension benefits, the government provides severance, removal and sick leave benefits to employees as well as retirement health benefits. These non-pension benefit arrangements are not prefunded and thus have no assets set aside to fund them, resulting in deficiencies for the arrangements equal to the accrued benefit liabilities which are estimated actuarially using information and assumptions approved by management. As of March 31, the liabilities for pensions and other employee benefit arrangements were as follows:

	<b>2017</b>	<b>2016</b>
		Restated - Note 2 (o)
<b>Pension Benefits</b>		
Pension plans for MLAs	14,042	11,774
Total Pension benefits	<u>14,042</u>	<u>11,774</u>
<b>Other Employee Benefits</b>		
Severance and removal	32,459	26,332
Retirement health benefits	18,209	16,951
Sick leave	11,170	10,909
Total Other employee benefits	<u>61,838</u>	<u>54,192</u>
Total pension and other employee benefits	<u>75,880</u>	<u>65,966</u>

---

**12 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS (continued)**

**Public Service Pension Plan**

Substantially all of the employees of the Government are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of 2 percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation. Contributions are required by both the employees and the Government of Nunavut. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The contribution rate effective at March 31, 2017 was 1.01 times (2016 - 1.15 times) for members enrolled before January 1, 2013, and 1.0 times (2016 - 1.11 times) for members enrolled beginning January 1, 2013. Total employer contributions of \$38,504 (2016 - \$40,663) were recognized as expense in the current year. Total employee contributions were \$34,667 (2016 - \$32,231).

**Legislative Assembly Retiring Allowances Plans**

The Government sponsors two defined benefit pension plans for Members of the Legislative Assembly (MLAs). Both plans are administered by the Management and Services Board of the Legislative Assembly. The plans provide pensions based on length of service and final average earnings. They provide inflation protection based on increases in the Consumer Price Index.

The first plan is the Legislative Assembly Retiring Allowances Fund (LARAF), a registered and contributory defined benefit pension plan established under the *Legislative Assembly Retiring Allowances Act*. The Office of the Legislative Assembly operates a separate pension fund in trust to administer LARAF contributions and allowances. The fund came into effect on April 1, 1999.

The second plan is the Supplementary Retiring Allowances Fund (SRAF), a voluntary non-registered, non-contributory defined benefit pension plan established under the *Supplementary Retiring Allowances Act* for MLAs who elect to participate. Payments and expenses related to the SRAF are paid from the Government's consolidated revenue fund. This plan came into effect during the 2001-02 year, and provides for benefits retroactive to April 1, 1999.

Retirement benefits are payable to a MLA based on a percentage of the average best earnings over four consecutive years as a MLA and as a Minister, Speaker or Chairperson (if applicable) multiplied by credited service as a MLA and for each of the three positions (if applicable). A position must be held for a least one year, and the pension for each position is calculated separately. The percentages used to calculate retirement benefits are 2% for the LARAF and 3% for the SRAF.

The normal retirement age under both of these plans is the earliest of (a) age 60, (b) 30 years of service, or (c) age plus service equals 80. A MLA may retire at any time upon ceasing to be a MLA. Early retirement results in a pension reduction of 0.25% for each month a MLA retires before the normal retirement age. The late retirement age for MLAs is up to age 69.

There have been no plan amendments, plan settlements and curtailments or temporary deviations from these plans in 2017 (no changes in 2016).

Actuarial valuations were completed for these plans as of April 1, 2014. The valuations were based on a number of assumptions about future events including inflation rates (2.0%), interest rates (3.6%), return on assets (4.9%), increases in remuneration (3.0%), and mortality. The assumptions used reflect the best estimates as approved by the Management and Services Board of the Legislative Assembly. The valuations were performed using the projected unit credit actuarial cost method. The asset valuation method, market-related value, for the LARAF plan is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period. The effective date of the next actuarial valuations for these plans is April 1, 2017.

The pension liabilities represent the excess of the actuarial present value of accrued pension benefits over the actuarial value of net assets available for benefits.

**GOVERNMENT OF NUNAVUT**  
**PUBLIC ACCOUNTS**  
**Notes to Consolidated Financial Statements**

**March 31, 2017**

(in thousands of dollars)

**12 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS (continued)**

Based on information provided for the year by the plans' actuary, the MLA pension liabilities as of March 31 are as follows:

	<b>LARAF</b>	<b>SRAF</b>	<b>2017</b>	<b>2016</b>
Accrued benefit obligation	10,900	15,852	26,752	23,307
Deduct:				
Pension fund assets	11,810	-	11,810	10,184
Unamortized actuarial (gain) loss	14	886	900	1,349
	11,824	886	12,710	11,533
Pension (asset) liability	(924)	14,966	14,042	11,774

As at March 31, 2017, LARAF pension fund assets had a market value of \$12,433 (2016 - \$10,178). The actual rate of return was positive 16.13% (2016 - negative 1.92%). The SRAF has no pension fund assets; however, the pension liability is funded all or in part by designated investments (Note 4).

LARAF and SRAF actuarial gains/losses are both amortized over 1.0 year (2016 - 1.6 and 1.7 years, respectively) which is the estimated average remaining service lives for contributors to these plans.

The total expenses related to MLA pensions include the following components:

	<b>LARAF</b>	<b>SRAF</b>	<b>2017</b>	<b>2016</b>
Current period benefit cost	1,137	1,759	2,896	2,897
Amortization of actuarial (gains) losses	184	620	804	1,493
	1,321	2,379	3,700	4,390
MLAs contributions	(232)	-	(232)	(218)
Pension expense	1,089	2,379	3,468	4,172
Interest cost on the average accrued benefit obligation	396	577	973	838
Expected return on the average pension plan assets	(518)	-	(518)	(462)
Pension interest expense	(122)	577	455	376
Total expenses related to pensions	967	2,956	3,923	4,548

Pension benefits paid for the LARAF and SRAF were \$466 and \$747, respectively (2016 - \$226 and \$647, respectively).

The Government's contributions related to the LARAF and SRAF during the year were \$916 and \$1,840, respectively (2016 - \$874 and \$1,710, respectively).

**Other Employee Benefits**

The changes in the accrued benefit obligations during the year were as follows:

	<b>Severance and removal</b>	<b>Sick leave</b>	<b>Retirement health benefits</b>	<b>2017</b>	<b>2016</b>
					Restated - Note 2 (o)
Accrued benefit obligations at beginning of the year	26,332	10,909	16,951	54,192	53,585
Benefits earned	2,575	1,652	994	5,221	5,487
Interest cost on the average accrued benefit	719	356	674	1,749	1,687
Benefits paid	(2,025)	(1,599)	(410)	(4,034)	(3,939)
Actuarial (gain) loss	4,858	(148)	-	4,710	(2,628)
Accrued benefit obligations at end of year	32,459	11,170	18,209	61,838	54,192

The principal actuarial assumptions used in measuring the accrued benefit obligation as at March 31, 2017 included increases in remuneration of 3.0% and an average discount rate of 3.0%.

<b>Loans and mortgages payable</b>	<b>2017</b>	<b>2016</b>
Loans payable to Canada Mortgage and Housing Corporation (CMHC), repayable in annual installments of \$2,285 to the year 2032, bearing interest at a rate of 6.97% (2016 - 6.97%).	10,020	11,394
Loans payable to Canada Mortgage and Housing Corporation (CMHC), assumed from Inuit Non-Profit Housing Corporation in 2017, repayable in monthly installments, maturing from 2019 to 2028 at interest rates from 2.04% to 10.375%.	300	-
Mortgage payable in annual installments of \$554 to the year 2020, bearing interest at a rate of 6.9% (2016 - 6.9%) compounded semi-annually. The mortgage is secured by a building. The carrying value of the security is \$4,842 (2016 - \$5,153).	1,758	2,177
Redeemable 20 year amortizing debenture, bearing interest at a rate of 6.809% (2016 - 6.809%) due September 27, 2021. Repayable in blended semi-annual payments of \$2,848 with a balloon payment of \$17,502 at the end of the term.	33,048	36,326
Non-revolving fixed rate term loan facility with payments of \$42 due monthly with the final payment due on May 1, 2021. Interest at 4.24%.	1,906	2,318
Non-revolving fixed rate term loan facility with payments of \$53 due monthly with the final payment due on May 1, 2021. Interest at 4.24%.	2,436	2,960
Non-revolving fixed rate term loan facility with payments of \$74 due monthly with the final payment due on June 1, 2021. Interest at 4.24%.	3,438	4,168
Non-revolving fixed rate term loan facility with payments of \$30 due monthly with the final payment due on February 1, 2022. Interest at 4.24%.	3,919	4,104
Non-revolving fixed rate term loan facility with payments of \$133 due monthly with the final payment due on July 1, 2021. Interest at 4.24%.	6,302	7,602
Non-revolving committed loan facility, payments on the first tranche of \$100 plus interest due monthly with the final payment due April 1, 2025, on the second tranche of \$58 beginning April 1, 2016, due April 1, 2026, on the third tranche of \$82 beginning April 1, 2017 due April 1, 2027. Interest at prime minus 0.5%.	54,576	36,753
Non-revolving committed loan facility, payments of \$83 plus interest due monthly with the final payment due November 30, 2022. Interest at prime minus 0.5%.	15,667	16,667
Non-revolving committed loan facility, payments of \$67 plus interest due monthly with the final payment due April 30, 2024. Interest at prime minus 0.5%.	13,667	14,466
Project financing payable - Nunavut Energy Management Program project, payments due monthly of \$139 to 2019, \$95 to 2022 with a final payment due July 2023. Average interest rate is 5.13%.	6,409	7,554
Project financing payable, ecoENERGY Innovation Initiative program, interest free payments due annually from April 1, 2016 to March 31, 2021 based on annual net profit arising from the project, April 1, 2016 until March 31, 2021.	1,352	1,309
	<b>154,798</b>	<b>147,798</b>

The QEC bank credit facility limit is \$20,000 (2016 - \$20,000). The non-revolving committed and bridge loan facilities above each has an option to utilize Bankers' Acceptances with stamping fees calculated at 50 bps per annum with terms not less than 7 days and not more than 365 days and issued and reissued in minimum aggregate amounts of Canadian \$1,000 and multiples thereof.

Principal and interest amounts due in each of the next five fiscal years and thereafter on the loans and mortgages payable are as follows:

	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2018	14,388	5,213	19,601
2019	14,534	4,566	19,100
2020	14,956	3,924	18,880
2021	15,749	3,267	19,016
2022	35,753	2,147	37,900
2023 and beyond	59,418	4,234	63,652
	<b>154,798</b>	<b>23,351</b>	<b>178,149</b>

**GOVERNMENT OF NUNAVUT  
PUBLIC ACCOUNTS  
Notes to Consolidated Financial Statements**

**March 31, 2017**

(in thousands of dollars)

**13 LONG TERM DEBT AND BORROWING AUTHORITY LIMIT (continued)**

Interest expense on long term debt was \$5,076 for the year (2016 - \$5,293). During the year, interest costs of \$227 (2016 - \$391) were capitalized as part of additions to tangible capital assets. The interest paid on long term debt during the year was \$5,330 (2016 - \$5,710).

**Borrowing Authority**

As of March 31, 2017 the Governor General in Council of Canada, pursuant to subsection 27(5) of the *Nunavut Act*, had approved the Government of Nunavut borrowing up to \$650 million (i.e., authorized borrowing limit).

	<b>2017</b>	<b>2016</b>
Qulliq Energy Corporation, long term debt	134,959	125,364
Nunavut Housing Corporation, long term debt	10,320	11,394
Consolidated Revenue Fund, mortgage payable and Nunavut Energy Management Program Project	8,167	9,731
Qulliq Energy Corporation, repayable contribution agreement	1,352	1,309
	154,798	147,798
Consolidated Revenue Fund, Iqaluit International Airport Improvement Project (Note 14)	134,292	100,092
Capital lease obligations (Note 15)	33,715	42,326
	322,805	290,216
Qulliq Energy Corporation, bank overdraft liability	8,393	10,901
Total debt	331,198	301,117
Authorized borrowing limit	650,000	650,000
Available borrowing capacity	318,802	348,883

The Government of Nunavut guarantees the long term debt of Qulliq Energy Corporation and Nunavut Housing Corporation as well as the bank overdrafts of Qulliq Energy Corporation and Nunavut Development Corporation. As part of their financing, Nunavut Development Corporation subsidiaries have arranged various credit facilities at different terms and interest rates. Nunavut Development Corporation has provided a guarantee for these credit facilities.

Under the terms of the 1999 Social Housing Agreement (SHA), the Government of Canada originally provided funding to the Nunavut Housing Corporation (NHC) to build social housing assets in the form of long-term mortgages payable to CMHC (referred to as section 79 debt under the SHA) and loans payable to CMHC (referred to as section 82 debt under the SHA). Under the SHA, the funding provided to NHC was used to reduce 100% of the section 79 debt and reduce by 5/9th of the section 82 debt, and to fund the related interest payments that NHC would make each year to CMHC. This funding receivable from CMHC and the related payments due by NHC each year on the long term debt payable to CMHC are offset, resulting in no exchange of cash between NHC and CMHC. The funding receivable from CMHC is recorded as a reduction of the corresponding long-term debt payable. As the funding from CMHC and the corresponding repayments of long term debt are non-cash transactions, they have not been recorded in the consolidated statement of cash flow.

**14 IQALUIT INTERNATIONAL AIRPORT IMPROVEMENT PROJECT**

In September 2013, the Government signed agreements as part of a public-private partnership (P3) arrangement to design, build, finance, operate and maintain new and updated infrastructure at the Iqaluit International Airport. The design and construction components are scheduled to be completed by December 2017. The estimated cost of the project is \$305,376. \$277,942 of the estimate represent costs incurred by the P3 proponent. The capital costs of the arrangement will be partially funded up to \$77,300 from PPP Canada Inc.

	<b>2017</b>	<b>2016</b>
<b>Total eligible costs incurred by P3 proponent</b>		
Balance, beginning of year	163,492	85,284
Eligible costs incurred during the year	57,300	78,208
Balance, end of year	220,792	163,492
<b>Total progress payments made by the Government</b>		
Balance, beginning of year	63,400	31,800
Progress payments made during the year	23,100	31,600
Balance, end of year	86,500	63,400
<b>Liability as at March 31</b>	134,292	100,092

Interest costs of \$7,349 were capitalized (2016 - \$6,516) as part of additions to tangible capital assets.

**GOVERNMENT OF NUNAVUT**  
**PUBLIC ACCOUNTS**  
**Notes to Consolidated Financial Statements**

**March 31, 2017**

(in thousands of dollars)

**15 CAPITAL LEASE OBLIGATIONS**

Capital lease obligations are based upon contractual minimum lease payments for leases in effect as of March 31.

	<b>2017</b>	<b>2016</b>
Total minimum lease payments	39,357	50,630
Less: imputed interest	(5,545)	(8,170)
Less: executory costs	(97)	(134)
<b>Present value of minimum lease payments</b>	<b>33,715</b>	<b>42,326</b>

Minimum lease payments, including principal, interest and executory costs, for each of the next 5 years and thereafter are as follows:

	<b>Principal</b>	<b>Interest</b>	<b>Executory</b>	<b>Total</b>
2018	9,378	2,008	36	11,422
2019	9,921	1,349	12	11,282
2020	7,119	744	12	7,875
2021	1,389	447	12	1,848
2022	1,481	352	12	1,845
2023 and beyond	4,427	645	13	5,085
	<b>33,715</b>	<b>5,545</b>	<b>97</b>	<b>39,357</b>

Lease payments are allocated between repayments of the liability, interest expense and any related executory costs. The total minimum lease payments less the initial liability and executory costs represents the total interest cost of the lease. The interest expense is calculated using the same discount rate used in computing the present value of the minimum lease payments applied to the outstanding lease liability at the beginning of the lease payment period.

Interest expense related to capital lease obligations for the year was \$2,630 (2016 - \$3,205) at an implied average interest rate of 7.8% (2016 - 7.6%). The capital lease obligations expire between 2018 and 2027.

**16 EXPENSES BY TYPE**

	<b>2017</b>	<b>2016</b>
		Restated - Note 2 (o)
Compensation and employee benefits	649,904	619,135
Grants and contributions	200,619	185,740
Goods and services	1,081,485	1,057,850
Amortization of tangible capital assets	109,163	115,474
Write-down of tangible capital assets	8,242	24,933
Interest expense	8,777	9,353
Increase in valuation allowances	8,575	6,949
	<b>2,066,765</b>	<b>2,019,434</b>

**17 CONTRACTUAL OBLIGATIONS**

The Government has entered into agreements for, or is contractually obligated for, the following payments subsequent to March 31, 2017:

	<b>Total</b>
Commitments under operating leases	154,567
Capital commitments	175,951
Policing agreement	602,055
Iqaluit International Airport Improvement commitments	1,106,522
Other commitments	465,548
	<b>2,504,643</b>

Contractual obligations by fiscal year are as follows:

2018	480,540
2019	258,820
2020	143,760
2021	92,481
2022	84,231
2023 and beyond	1,444,811
	<b>2,504,643</b>

**PUBLIC ACCOUNTS**  
**Notes to Consolidated Financial Statements**

**March 31, 2017**

*(in thousands of dollars)*

**18 CONTINGENCIES**

**(a) Post-division adjustments**

The agreement governing the division of assets and liabilities between the Government of Nunavut and the Government of the Northwest Territories as at April 1, 1999 sets out a mechanism which provides for post-division adjustments.

The period for such adjustments is unlimited; and such adjustments could be made in a variety of specified circumstances such as the settlement of litigation related to events prior to the date of division. In such an event, there is an opportunity for one of the governments to file a claim against the other government to share in costs. Post-division adjustments will be recognized in the year the liability can be reasonably estimated. As at March 31, 2017, no new post-division adjustments were recorded.

**(b) Environmental Protection Compliance Orders**

Petroleum Products Division (PPD) received Environmental Protection Compliance Orders (EPCOs) from Environment Canada related to contraventions of regulations for storage tank systems for petroleum products at selected facilities in Rankin Inlet, Whale Cove, Iqaluit and Sanikiluaq. Those regulations provide for penalties for continued contravention by failure to address EPCOs. The Iqaluit, Rankin Inlet and Sanikiluaq projects were completed in the fall of 2016. Compliance with the regulations at the Government's remaining storage tank farms facilities is expected to be completed over the years 2016 to 2021. Environment Canada has agreed to postpone further enforcement action pending satisfactory completion of the work as scheduled.

Qulliq Energy Corporation (QEC) received a draft Environmental Protection Compliance Order (EPCO) from Environment Canada related to contraventions of regulations for storage tank systems for petroleum products at the Corporation's facilities in Cambridge Bay. The Corporation has been given until December 2017 to complete the requested corrective measures.

**(c) Litigation**

A number of cases of alleged sexual abuse by former employees or contractors in Nunavut when it was part of the Northwest Territories have been filed or are pending. The Nunavut and the Northwest Territories governments will jointly defend any such proceedings and the cost of defending the actions and any damages that may eventually be awarded will be shared by the two governments 44.34% and 55.66%, respectively. An estimate of any liability that may result from these actions is not determinable at this time; consequently no liability has been accrued.

There are a number of claims and threatened litigation cases outstanding against the Government for which the outcomes are not determinable, including a number of cases where an amount is not specified. The nature of these claims include wrongful dismissal, breach of policy, personal injury, sexual abuse, negligence, wrongful arrest and assault. As of March 31, 2017, all of these claims have been assessed as being either without merit or not determinable at this time.

**(d) Other**

Under the terms of the Social Housing Agreement with Canadian Mortgage and Housing Corporation (CMHC), Nunavut Housing Corporation (NHC) is responsible for the administration of a number of loans to third parties, where CMHC is the lender or insurer of these loans. The agreement provides that NHC shall indemnify and reimburse CMHC for, and save it harmless from, all losses, costs and expenses related to these loans. The carrying value of these third party loans is approximately \$1,041 as at March 31, 2017 (2016 - \$1,615).

**19 TRUSTS UNDER ADMINISTRATION**

The Government administers trust accounts on behalf of third parties, which are not included in the reported Government assets and liabilities.

	<b>2017</b>	<b>2016</b>
Public Trustee	4,805	4,825
Territorial Court Trust	488	363
Natural Resources Conservation Trust	624	402

**20 CONSOLIDATED BUDGET**

The schedule below reconciles the Government's budget presented to the Legislative Assembly to the consolidated budget totals for 2016-17 reported in the Consolidated Statement of Operations and Net Assets.

	Budget Per Main Estimates (1)	Budgets of Territorial Corporations (2)	Budgeted Consolidation Adjustments (3)	Consolidated Budget
<b>Revenues</b>				
From the Government of Canada	1,634,200	27,500	-	1,661,700
From the Government of Nunavut	-	288,900	(288,900)	-
Revenues generated by the Government of Nunavut	354,700	169,500	(129,100)	395,100
<b>Total revenues</b>	<b>1,988,900</b>	<b>485,900</b>	<b>(418,000)</b>	<b>2,056,800</b>
<b>Expenses</b>				
Health	420,500	-	(500)	420,000
Community and Government Services	483,100	-	(64,200)	418,900
Education	279,700	58,700	(50,200)	288,200
Housing	234,200	284,700	(236,500)	282,400
Finance	123,100	136,300	(60,200)	199,200
Family Services	148,600	-	-	148,600
Justice	122,400	-	-	122,400
Economic Development and Transportation	65,600	8,600	(4,600)	69,600
Executive and Intergovernmental Affairs	33,500	-	(100)	33,400
Environment	32,600	-	-	32,600
Culture and Heritage	28,900	-	(1,400)	27,500
Legislative Assembly	26,600	-	-	26,600
<b>Total expenses</b>	<b>1,998,800</b>	<b>488,300</b>	<b>(417,700)</b>	<b>2,069,400</b>
<b>Surplus for year</b>	<b>(9,900)</b>	<b>(2,400)</b>	<b>(300)</b>	<b>(12,600)</b>

- (1) The budgeted deficit of \$9,900 is \$1,100 less than the deficit of \$11,000 (rounded) indicated on page x of the 2016-17 Main Estimates. This represents the principal repayments on Nunavut Energy Management Program project made during the year and do not represent expenses under Canadian public sector accounting standards. The budgeted expenses totals originally presented to the Legislative Assembly have been adjusted for the projected supplementary requirements, principal repayments on Nunavut Energy Management Program, amortization and transfers to tangible capital assets included in the 2016-2017 Main Estimates and Capital Estimates. Further, budgeted revenues generated by the Government of Nunavut shown on a net basis in the Main Estimates have been increased \$164,160 to reclassify cost of goods sold (COGS) of revolving funds to expenses. Budgeted expenses of Finance and Community and Government Services have been increased by \$2,300 and \$161,860 respectively to reflect the COGS of the revolving funds.
- (2) The budgets of the territorial corporations have been allocated to the government's expense lines based on their ministerial reporting relationship.
- (3) The budgeted consolidation adjustments are based on amounts budgeted by the territorial corporations and government departments or where necessary estimated based on historical experience.

**21 COMPARATIVE INFORMATION**

Certain comparative figures have been reclassified to conform to the current year's presentation.

**22 SUBSEQUENT EVENTS**

On June 30, 2017, the Government signed amending and extension agreements on various leased buildings accounted for in the capital lease obligations balance in these financial statements. Under the new agreements, the term of the leases are being extended for 10 years at which time the government will assume ownership, the rent payments required are being modified and the government is assuming responsibility of the ongoing maintenance of the properties. The government's revised capital lease obligations under these new agreements was estimated at \$68.5 million and will be accounted for in the March 31, 2018 fiscal year.

The Nunavut Housing Corporation, subsequent to year end, committed \$5 million to remediate units affected by mold in five communities. The corporation is in the process of assessing the remediation costs of units affected by mold in other communities.

On August 17, 2017, approval was given to Qulliq Energy Corporation to extend its existing loan facilities and for an additional line of credit of \$47.6 million to enable the funding of its 2017-18 Capital Plan and approved carryovers.

On August 31, 2017, Nunavut Arctic College signed a four year lease arrangement for student housing in Iqaluit with a third party. The College is committed to annual rental payments for the housing of \$1,654, which will be paid in monthly installments. At the end of the four year term the College has an option to renew the lease for an additional four year term at a rate to be determined at the time of renewal.

During the year, interest of \$7,576 was capitalized (2016 - \$6,907) as part of the cost of additions.

During 2017, the Government wrote-down the value of specifically identified assets. The significant write-downs include Kugaardjuq elementary and high school in Kugaaruk, the result of a major fire incident, with a net book value of \$6,024 and the John Arnalujuaq middle school construction in Arviat, the result of a cancelled project, with a net book value of \$1,264.

<b>Surplus for year</b>	35,459	21,445	26,863	83,767	277	84,044	144,577

(1) - Includes adjustments to eliminate inter-entity balances to comply with Canadian public sector accounting standards. For example, contributions by departments to revolving funds, territorial corporations and other agencies (i.e., consolidated entities) are shown in grants and contributions expense under the "Consolidated Revenue Fund" column, while the amounts received by the applicable consolidated entity group are shown as revenues in their respective columns. These amounts are eliminated upon consolidation to avoid double-counting and results in significant amounts shown in the 'Consolidation Adjustments' column.

---

**GOVERNMENT OF NUNAVUT****PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2017***(in thousands of dollars)*

---

**1 AUTHORITY AND OPERATIONS****(a) Government of Nunavut**

The Government of Nunavut (the Government) operates under the authority of Canada's *Nunavut Act*. The Government has an elected Legislative Assembly which authorizes disbursements, advances, loans and investments, except those specifically authorized by statute.

**(b) Main Estimates**

The 2016-2017 Main Estimates were tabled in the Legislative Assembly in February 2016 and represent the Government's fiscal plan for the year (i.e., original budget). Summary information and totals for government's original budget for the year are provided on pages x through xiii of the 2016-2017 Main Estimates. Planned Vote 5 revenues and Vote 4 expenses represent the share of eligible costs to be funded under agreements with the Government of Canada or others, and while not part of the annual Appropriations (Operations and Maintenance) Act approved by the Legislative Assembly in March 2016, they are, along with those of revolving funds, included in the original budget totals disclosed in these financial statements.

**2 SIGNIFICANT ACCOUNTING POLICIES****(a) Basis of accounting**

These non-consolidated financial statements are prepared in accordance with Canadian public sector accounting standards (PSAS), as issued by the Public Sector Accounting Board of Canada, with the exception that they are not consolidated and certain revenues are reported net of expenses (i.e., The petroleum products division and liquor revenues are reported net of their cost of goods sold).

Pursuant to Section 74 of the *Financial Administration Act*, the Government also prepares consolidated financial statements, which provide an accounting of the full nature and extent of the financial affairs and resources for which the Government is responsible. The consolidated reporting entity is defined in those statements.

**(b) Reporting entity**

These financial statements include the assets, liabilities and operating results of the Government's Consolidated Revenue Fund, including departments included in the Main Estimates, as well as the following revolving funds:

- Liquor Revolving Fund
- Petroleum Products Revolving Fund
- Public Stores Revolving Fund
- Student Loan Fund

Revolving funds are established by the Government to provide the required working capital to deliver goods and services to the general public and to Government departments.

The following public agencies are included in these non-consolidated financial statements only to the extent of the Government's contributions to and services received from or provided to them during the year:

- Territorial corporations
  - Nunavut Arctic College (NAC)
  - Nunavut Business Credit Corporation (NBCC)
  - Nunavut Development Corporation (NDC)
  - Nunavut Housing Corporation (NHC)
  - Qulliq Energy Corporation (QEC)
- Other public agencies
  - District Education Authorities
  - Human Rights Tribunal
  - Inuit Uqausinginnik Taiguusiliuqtiit
  - Labour Standards Board
  - Legal Services Board
  - Liquor Commission
  - Nunavut Liquor Licensing Board
  - Office of the Public Trustee
  - Qullit Nunavut Status of Women Council

Nunavut Lottery, which operates as a government business partnership, is recorded in these non-consolidated financial statements based on the contributions received during the year from the net results of lottery sales and activities in Nunavut.

---

**GOVERNMENT OF NUNAVUT****PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2017***(in thousands of dollars)*

---

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)****(b) Reporting entity (continued)**

The Workers' Safety and Compensation Commission (WSCC), which is responsible for the administration of related employer insurance premiums and employee benefit programs within Nunavut is not accounted for in these financial statements. Since the Government does not control or have access to the WSCC's assets or responsibility for its obligations, it is excluded from the Government's financial reporting entity.

**(c) Use of estimates and measurement uncertainty**

The preparation of financial statements in accordance with Canadian PSAS requires government management to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates and assumptions are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these financial statements, management believes the estimates and assumptions to be reasonable. The more significant areas where estimates and assumptions have been used to prepare these financial statements include:

(i) Income tax revenues collected by the Government of Canada on the Government's behalf.

(ii) Allowance for doubtful accounts, loan valuation allowances, provision for losses on loan guarantees, amortization of tangible capital assets, liability for contaminated sites, contingencies and other employee benefit liabilities.

**(d) Cash and cash equivalents**

Cash and cash equivalents are comprised of bank account balances, net of outstanding cheques, and short term highly liquid investments that are readily convertible to cash with a maturity term of 3 months or less from the time of their acquisition. Cash equivalents are recorded at cost. Short term investments are recorded at the lower of cost or market value.

**(e) Inventories**

Inventories for resale include bulk fuel and liquor products. Bulk fuel is valued at the lower of weighted average cost or net realizable value. Liquor products are valued at the lower of cost or net realizable value on a first-in, first-out basis. Inventory for use includes health and medical supplies valued at the lower of cost or replacement cost, with the cost being determined on a first-in, first-out basis.

**(f) Loans receivable**

Loans receivable are valued at the lower of cost or net recoverable value. Based on the circumstances known at the date the financial statements are prepared, including past events and current conditions, valuation allowances are recorded when collection is considered doubtful or when the value of a loan receivable is impaired. Interest revenue is recorded on an accrual basis when the collectability of both principal and interest are reasonably assured. An uncollectible or impaired loan receivable balance can be written off only upon receipt of required statutory approvals.

**(g) Tangible capital and leased assets**

Tangible capital assets are non-financial assets whose useful life exceeds one fiscal year and are intended to be used on an ongoing basis for delivering government services. They may include such diverse items as buildings, vehicles, equipment, aircraft and computer hardware and software systems.

Tangible capital assets are recorded at cost or, where actual cost is not available, estimated current replacement cost is used. Gifted or contributed tangible capital assets are recorded at fair market value upon receipt, or a nominal value if fair value is not available.

Leased assets that meet the definition of a tangible capital asset, except that they are held under lease by the Government, are capitalized and reported as such if, in substance, their terms and conditions transfer substantially all of the benefits and risks of ownership to the Government. Legal ownership may not necessarily have been transferred. The lease liability and corresponding asset are recorded based on the present value of payments due over the course of the lease. The present value is based on the lower of the rate implicit in the lease or the Government's incremental borrowing rate at the time the obligation is incurred.

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(g) Tangible capital and leased assets (continued)**

Tangible capital assets, when placed into service, are amortized over their useful lives using the straight line method. When assets are leased, the amortization rate will be based on the lesser of the lease terms or the useful lives of the leased assets. The following amortization rates are being used:

<b>Asset Category</b>	<b>Amortization Period</b>
Buildings	30 years
Leased Buildings	30 years
Infrastructure	30 years
Tank Farms	30 years
Storage Facilities	30 years
Equipment	5-30 years
Land	Not amortized

When conditions indicate that a tangible capital asset no longer contributes to the Government's ability to provide goods and services, or that the value of future economic benefits associated with the tangible capital asset is less than its net book value, the cost of the tangible capital asset is reduced to reflect the decline in the asset's value.

In the year a tangible capital asset is acquired or put into service, amortization is taken for the full year. Tangible capital assets under construction or development are recorded as work in progress with no amortization taken until the year the asset is placed into service.

Assets acquired by right, such as Crown lands, water and mineral resources, are not recorded in the financial statements. The cost of works of art and museum collections consisting mainly of paintings, sculptures, drawings, prints and photographs are charged to expense in the year they are acquired.

**(h) Pension and other employee benefits**

Pension benefits

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. Contributions are required by both the employees and the Government of Nunavut to cover current service costs. Pursuant to legislation currently in place, the Government of Nunavut has no legal or constructive obligation to pay further contributions with respect to any past service or funding deficiencies of the Plan. Consequently, the Government of Nunavut's contributions are recognized as an expense in the year when employees have rendered service and represent the total pension obligation of the Government of Nunavut.

In addition, the Government provides two different pension benefits to Members of the Legislative Assembly. The costs and obligations of the Government for these pension plan benefits are estimated on an actuarial basis. When actual experience varies from estimates, or when actuarial assumptions change, actuarial gains or losses arise. These gains and losses are not recognized immediately but rather over the estimated average remaining service lives of the contributors. Recognition of actuarial gains and losses commences in the year following the effective date of the related actuarial valuations. In addition, upon a plan amendment, curtailment or settlement, previously unrecognized net actuarial gain or loss balances will require immediate recognition.

Other employee benefits

Under the terms and conditions of employment, Government employees may earn severance and removal benefits based on years of service. These benefits are paid upon resignation, retirement or death of the employee. Further, employees, upon retirement, are entitled to enroll in health and dental benefit programs, the cost of which are cost-shared by government. The estimated liability and related expenses for these benefit programs are recorded as employees earn them. Actuarial valuation estimates of the government's obligations and related costs for each of these benefit programs have been prepared using data provided by management and assumptions based on management's best estimates. Termination benefits are recorded when employees are identified for lay-off.

The Government's employees are entitled to sick leave under their terms of employment. Included in other employee benefits is an amount for employees who are permitted to accumulate unused sick leave. However, such entitlements do not vest and can be used only in the event of illness. The amount of accumulated sick leave entitlements which are expected to be used in future years is determined by an actuarial valuation and has been recorded in these financial statements.

---

**GOVERNMENT OF NUNAVUT****PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2017***(in thousands of dollars)*

---

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)****(i) Revenues**

Unless otherwise stated, all revenues are recognized and reported on an accrual basis in the period in which transactions or events give rise to the revenues. Specific revenue accounting policies are as follows:

Transfers from the Government of Canada

Transfers from the Government of Canada are recognized as revenue when the funding is authorized and any eligibility criteria are met, except to the extent that funding stipulations give rise to an obligation that meets the definition of a liability and is recorded as deferred revenue.

Taxes

Tax revenues are recognized in the period in which the taxable event occurs and when they are authorized by legislation or the ability to assess and collect the tax has been provided through legislative convention. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Tax concessions transferred to taxpayers include the Nunavut child tax benefit, the cost of living tax credit and the business training tax credit. Taxes, under the *Income Tax Act*, are collected by the Government of Canada on behalf of the Government of Nunavut under a tax collection agreement and are remitted to the Government. The remittances are based on the Government of Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for the year are finalized. These income tax adjustments are accounted for in the year known.

Fuel, tobacco, and payroll taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act* and the *Payroll Tax Act*, respectively. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Tobacco tax commission on tobacco tax revenue provides a financial benefit other than relief of taxes and is recorded as an expense.

Property taxes are assessed on a calendar year basis and are recorded on an accrual basis in the fiscal year.

Other taxes are accrued based on information provided by those parties which collect tax on the Government's behalf.

Recoveries of prior years expenditures

Recoveries of prior years expenditures, including reversals of prior years expenditure over-accruals, are reported separately from other revenues on the statement of operations. Pursuant to the subsection 36(9) of the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures.

**(j) Expenses**

Expenses are recorded on an accrual basis when goods are received or services are rendered.

Grants and contributions are recognized as expenses provided that the transfer is authorized and all eligibility criteria have been met by the recipient. Grants and contributions include transfer payments to individuals, municipalities and other organizations under government funding arrangements. Payments to individuals include payments for children's benefits, income support or income supplement. These payments are based on age, family status, income, and employment criteria. Other grants and contributions are provided to conduct research, to establish new jobs through support for training and to promote educational, health and cultural activities.

**(k) Contingencies**

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur or fail to occur and is quantifiable, an estimated liability is accrued as part of accounts payable and accrued liabilities. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements and no liability is accrued. Contingent liabilities result from potential environmental contingencies or pending litigation and like items.

---

**GOVERNMENT OF NUNAVUT****PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2017***(in thousands of dollars)*

---

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)****(l) Contaminated sites**

Contaminated sites are the result of contamination being introduced into air, soil, water or sediment in concentrations that exceeds the maximum acceptable amounts under an environmental standard.

A liability for remediation of a contaminated site is recognized when all of the following criteria are met:

- an environmental standard exists;
- contamination exceeds the environmental standard;
- the Government is directly responsible or accepts responsibility;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

The liability for contaminated sites reflects government management's best estimate of the amount required to remediate sites to the current minimum standard for its use prior to the contamination.

The liability is recognized net of any expected recoveries and includes all costs directly attributable to remediation activities including post remediation operations, maintenance and monitoring.

The liability is adjusted each year for the passage of time, new obligations, changes in management estimates and actual costs incurred.

If the likelihood of a future event that would confirm the Government's responsibility is not determinable, a contingent liability is disclosed in the notes to the financial statements.

**(m) Future changes in accounting standards**

A number of new and amended standards issued by the Public Sector Accounting Board of Canada are not yet effective and have not been applied in preparing these financial statements. The Government plans to adopt these new and amended standards on their effective dates and is currently assessing the impact they will have on its financial statements. The following standards for governments will become effective as follows:

*PS 2200 Related Party Disclosures (effective April 1, 2017)*, a new standard establishing disclosure requirements for related party transactions.

*PS 3210 Assets (effective April 1, 2017)*, a new standard providing guidance for applying the definition of assets set out in *PS 1000 Financial Statement Concepts*.

*PS 3320 Contingent Assets (effective April 1, 2017)*, a new standard establishing disclosure requirements for contingent assets.

*PS 3380 Contractual Rights (effective April 1, 2017)*, a new standard defining and establishing disclosure requirements for contractual rights.

*PS 3420 Inter-Entity Transactions (effective April 1, 2017)*, a new standard establishing guidance on how to account for and report transactions between public sector entities that comprise a government's reporting entity from both a provider and a recipient perspective.

*PS 3430 Restructuring Transactions (effective April 1, 2018)*, a new standard defining a restructuring transaction and establishing guidance for recognizing and measuring assets and liabilities transferred in a restructuring transaction.

*PS 2601 Foreign Currency Translation (effective April 1, 2019)*, replaces PS 2600 with revised guidance on the recognition, presentation and disclosure of transactions and balances that are denominated in a foreign currency.

*PS 3450 Financial Instruments (effective April 1, 2019)*, a new standard establishing guidance on the recognition, measurement, presentation and disclosure of financial instruments, including derivatives.

*PS 1201 Financial Statement Presentation (effective in the period PS 3450 and PS 2601 are adopted)*, replaces PS 1200 with revised general reporting principles and standards of presentation and disclosure for government financial statements.

*PS 3041 Portfolio Investments (effective in the period PS 3450, PS 2601 and PS 1201 are adopted)*, replaces PS 3040 with revised guidance on accounting for, and presentation and disclosure of, portfolio investments.

**(n) Services provided without charge**

The Government of Nunavut receives audit services at no charge from the Office of the Auditor General of Canada. That Office's costs for these services have not been recorded in these financial statements.

**2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**(o) Restatement of Retirement health benefits liability**

All employees are entitled to, upon retirement, enroll in health and dental benefit programs, the cost of which are cost-shared by the government. Due to the nature of these benefits, actuarial valuations are required to estimate the Government's liability with respect to the health and dental benefits of the retirees.

The Government of Nunavut has reviewed its approach for the evaluation, accounting and reporting of retirement health benefits. In the past, the Government of Nunavut recognized health and dental benefits when they were paid, and no liability was recorded in the financial statements as it was not considered significant. In fiscal year 2017, an actuarial valuation was performed to measure the estimated liability. As a result of this valuation, the Government of Nunavut has recorded for the first time a liability in the financial statements for retiree health benefits, with retroactive restatement of comparative years.

As a result of this restatement, the opening balance of liabilities for pension and other employee benefits has increased by \$16,951, net assets and the beginning balance of net assets of the Government of Nunavut have decreased by \$16,951. The 2016 financial statements have been restated as follows:

**Liabilities for pension and other employee benefits**

As previously reported	42,841
Adjustment to opening liabilities for pension and other employee benefits	15,648
Adjustment of compensation and benefits expense	1,303
	59,792

**Net Assets**

Beginning of year, as previously reported	1,481,334
Adjustment of opening liabilities for pension and other employee benefits	(15,648)
	1,465,686

**Expenses - operations and maintenance**

As previously reported	1,164,886
Adjustment of compensation and benefits expense	1,303
	1,166,189

**3 CASH AND CASH EQUIVALENTS**

	<b>2017</b>	<b>2016</b>
Cash	600,907	556,274

During the year, government earned interest of prime less 1.65% on its net bank balances (2016 - prime less 1.75%).

**4 DUE FROM THE GOVERNMENT OF CANADA**

	<b>2017</b>	<b>2016</b>
Grant receivable:		
From the Government of Canada (Schedule A)	1,488,585	1,454,193
Less: Payments received	(1,488,585)	(1,454,193)
	-	-

<b>10 DEFERRED REVENUES</b>	<b>2017</b>	<b>2016</b>
Provincial-Territorial Base Funding (Building Canada Fund)	9,749	13,004
Gas Tax Agreement	36,023	41,339
Other deferred revenue	30,835	9,849
	<u>76,607</u>	<u>64,192</u>

The deferred revenue balance at March 31 includes mostly funding for eligible capital infrastructure projects and specific programs received from the Government of Canada under formal contribution or other agreements. In 2017-18 and beyond, as the government fulfills its obligations from purpose or other stipulations for the use of these funds the associated revenue will be recognized in its non-consolidated financial statements.

<b>11 LIABILITY FOR CONTAMINATED SITES</b>	<b>2017</b>	<b>2016</b>
Liabilities for remediation of contaminated sites	8,274	8,421

The Government's activities are subject to various federal and territorial laws and regulations, such as the Environmental Protection Act of Nunavut and the Environmental Guideline for Contaminated Site Remediation - 2010, governing the protection of the environment or to minimize any adverse impact thereon. The Government conducts its operations so as to protect public health and the environment and believes its operations are in compliance with all applicable laws and regulations.

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which it is responsible. As of March 31, 2017, there were 7 sites - 2 storage tank farms (2016 - 2), 4 waste sites - (2016 - 3 sites), and 1 school site (2016- nil), identified as requiring environmental remediation. For those sites where the Government of Nunavut expects to give up future economic benefits due to a legal order or plans to remediate contamination (e.g., due to the risk to human health), and is responsible or has accepted responsibility for remediation, and a reasonable estimate can be determined for remediation costs, a liability has been recorded in these financial statements.

The Government has identified an additional 71 (2016 - 71) sites on Commissioner's land for which liabilities for contamination may exist for assessment, remediation and monitoring. The activities associated with these sites are classified as follows:

	<b>2017</b>	<b>2016</b>
Storage tank farms	26	26
Power plants	26	25
Town and waste sites	11	11
Garages and other public works	5	6
Airports	2	2
Quarries	1	1
	<u>71</u>	<u>71</u>

**GOVERNMENT OF NUNAVUT  
PUBLIC ACCOUNTS**

**Notes to Non-Consolidated Financial Statements (unaudited)**

**March 31, 2017**

*(in thousands of dollars)*

**11 LIABILITY FOR CONTAMINATED SITES (continued)**

The Government acquired ownership of sites and activities associated with airports, tank farms and power plants on creation of the Territory on April 1, 1999. The contamination of certain sites occurred when other parties were responsible for the use of and/or held tenure to the sites. The Government has estimated that remediation of contamination at 14 storage tank farm sites and 25 power plant sites (2016 - 14 and 24) would cost approximately \$9,700 and \$38,400 (2016 - \$9,700 and \$40,600) respectively. In addition, the Government has estimated that remediation at the other sites could cost between \$55,000 - 126,000 (2016 - \$55,000 - 126,000) depending on the approach taken. No liability for remediation of these 71 sites has been recognized in these financial statements as the Government does not expect to give up any future economic benefits (i.e. no legal requirement to remediate). Going forward, a liability for remediation of these or other identified sites will be recognized if future economic benefits will be given up (i.e. public health risk or legal requirement).

Most storage tank farms and power plants are monitored on a regular basis to ensure the containment of the identified contaminants. For the other Government of Nunavut's operations and/or sites, there is no ongoing monitoring program in place, but plans for one are to be developed in the near future.

In addition, the Government has identified 143 (2016 - 140) sites where garages, public works facilities, quarries, sewage disposal/treatment and solid waste sites and activities are generally located and conducted within municipal boundaries and governed by municipal legislation. Contamination at these sites and activities within municipal boundaries and jurisdiction are the responsibility of municipalities to monitor and remediate if necessary.

**12 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS**

There are separate pension arrangements in place to provide retirement benefits to government employees and to Members of the Legislative Assembly (MLAs). In addition to pension benefits, the government provides severance, removal and sick leave benefits to employees as well as retirement health benefits. These non-pension benefit arrangements are not prefunded and thus have no assets set aside to fund them, resulting in deficiencies for the arrangements equal to the accrued benefit liabilities, which are estimated actuarially using information and assumptions approved by management. As of March 31, the liabilities for pensions and other employee benefit arrangements were as follows:

	<b>2017</b>	<b>2016</b>
		Restated - Note 2 (o)
<b>Pension Benefits</b>		
Pension plans for MLAs	14,042	11,774
<b>Total Pension benefits</b>	<b>14,042</b>	<b>11,774</b>
<b>Other Employee Benefits</b>		
Severance and removal	26,630	21,228
Retirement health benefits	18,209	16,951
Sick leave	9,733	9,839
<b>Total Other employee benefits</b>	<b>54,572</b>	<b>48,018</b>
<b>Total pension and other employee benefits</b>	<b>68,614</b>	<b>59,792</b>

**Public Service Pension Plan**

Substantially all of the employees of the Government of Nunavut are covered by the public service pension plan (the "Plan"), a defined benefit plan established through legislation and sponsored by the Government of Canada. The Government of Canada holds a statutory obligation for the payment of benefits relating to the Plan. Pension benefits generally accrue up to a maximum period of 35 years at an annual rate of 2 percent of pensionable service times the average of the best five consecutive years of earnings. The benefits are coordinated with Canada/Québec Pension Plan benefits and they are indexed to inflation. Contributions are required by both the employees and the Government of Nunavut. The President of the Treasury Board of Canada sets the required employer contributions based on a multiple of the employees' required contribution. The contribution rate effective at March 31, 2017 was 1.01 times (2016 - 1.15 times) for members enrolled before January 1, 2013 and 1.0 times (2016 - 1.11 times) for members enrolled beginning January 1, 2013. Total employer contributions of \$33,126 (2016 - \$34,830) were recognized as expense in the current year. Total employee contributions were \$29,958 (2016 - \$27,926).

**Legislative Assembly Retiring Allowances Plans**

The Government sponsors two defined benefit pension plans for Members of the Legislative Assembly (MLAs). Both plans are administered by the Management and Services Board of the Legislative Assembly. The plans provide pensions based on length of service and final average earnings. They provide inflation protection based on increases in the Consumer Price Index.

The first plan is the Legislative Assembly Retiring Allowances Fund (LARAF), a registered and contributory defined benefit pension plan established under the *Legislative Assembly Retiring Allowances Act*. The Office of the Legislative Assembly operates a separate pension fund in trust to administer LARAF contributions and allowances. The fund came into effect on April 1, 1999.

**GOVERNMENT OF NUNAVUT****PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)**

March 31, 2017

*(in thousands of dollars)***12 LIABILITIES FOR PENSION AND OTHER EMPLOYEE BENEFITS (continued)**

The second plan is the Supplementary Retiring Allowances Fund (SRAF), a voluntary non-registered, non-contributory defined benefit pension plan established under the *Supplementary Retiring Allowances Act* for MLAs who elect to participate. Payments and expenses related to the SRAF are paid from the Government's consolidated revenue fund. This plan came into effect during the 2001-02 fiscal year, and provides for benefits retroactive to April 1, 1999.

Retirement benefits are payable to a MLA based on a percentage of the average best earnings over four consecutive years as a MLA and as a Minister, Speaker or Chairperson (if applicable) multiplied by credited service as a MLA and for each of the three positions (if applicable). A position must be held for at least one year, and the pension for each position is calculated separately. The percentages used to calculate retirement benefits are 2% for the LARAF and 3% for the SRAF.

The normal retirement age under both of these plans is the earliest of: (a) age 60; (b) 30 years of service; or (c) age plus service equals 80. A MLA may retire at any time upon ceasing to be a MLA. Early retirement results in a pension reduction of 0.25% for each month a MLA retires before the normal retirement age. The late retirement age for MLAs is up to age 69.

There have been no plan amendments, plan settlements and curtailments or temporary deviations from these plans in 2017 (no changes in 2016).

Actuarial valuations were completed for these plans as of April 1, 2014. The valuations were based on a number of assumptions about future events including inflation rates (2.0%), interest rates (3.6%), return on assets (4.9%), increases in remuneration (3.0%), and mortality. The assumptions used reflect the best estimates as approved by the Management and Services Board of the Legislative Assembly. The valuations were performed using the projected unit credit actuarial cost method. The asset valuation method, market-related value, for the LARAF plan is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period. The effective date of the next actuarial valuations for these plans is April 1, 2017.

The pension liabilities represent the excess of the actuarial present value of accrued pension benefits over the actuarial value of net assets available for benefits.

Based on information provided for the year by the plans' actuary, the MLA pension liabilities as of March 31 are as follows:

	LARAF	SRAF	2017	2016
Accrued benefit obligation	10,900	15,852	26,752	23,307
Deduct:				
Pension fund assets	11,810	-	11,810	10,184
Unamortized actuarial (gains) losses	14	886	900	1,349
	11,824	886	12,710	11,533
<b>Pension (asset) liability</b>	<b>(924)</b>	<b>14,966</b>	<b>14,042</b>	<b>11,774</b>

As at March 31, 2017, the LARAF pension fund assets had a market value of \$12,433 (2016 - \$10,178). The actual rate of return was positive 16.13% (2016 - negative 1.92%). The SRAF has no pension fund assets; however, the pension liability is funded all or in part by designated investments (Note 8).

LARAF and SRAF actuarial gains/losses are both amortized over 1.0 year (2016 - 1.6 and 1.7 years, respectively) which is the estimated average remaining service lives for contributors to these plans.

The total expenses related to MLA pensions include the following components:

	LARAF	SRAF	2017	2016
Current period benefit cost	1,137	1,759	2,896	2,897
Amortization of actuarial (gains) losses	184	620	804	1,493
	1,321	2,379	3,700	4,390
MLAs contributions	(232)	-	(232)	(218)
Pension expense	1,089	2,379	3,468	4,172
Interest cost on the average accrued benefit obligation	396	577	973	838
Expected return on average pension plan assets	(518)	-	(518)	(462)
Pension interest expense	(122)	577	455	376
<b>Total pension expenses</b>	<b>967</b>	<b>2,956</b>	<b>3,923</b>	<b>4,548</b>

Pension benefits paid for the LARAF and SRAF were \$466 and \$747, respectively (2016 - \$226 and \$647, respectively).

The Government's contributions related to the LARAF and SRAF during the year were \$916 and \$1,840, respectively (2016 - \$874 and \$1,710, respectively).

**GOVERNMENT OF NUNAVUT

**Notes to Non-Consolidated Financial Statements (unaudited)**

**March 31, 2017**

(in thousands of dollars)

**13 MORTGAGE PAYABLE** **2017** **2016**

Mortgage payable in annual instalments to the year 2020, bearing interest at a rate of 6.9% compounded semi-annually. 1,758 2,177

Future mortgage payments consist of:	Principal	Interest	Total
2018	448	106	554
2019	480	74	554
2020	830	42	872
	<u>1,758</u>	<u>222</u>	<u>1,980</u>

Interest expense on the mortgage payable was \$133 for the year (2016 - \$160). The interest paid on the mortgage payable during the year was \$135 (2016 - \$163).

**14 IQALUIT INTERNATIONAL AIRPORT IMPROVEMENT PROJECT**

In September 2013, the Government signed agreements as part of a public-private partnership (P3) arrangement to design, build, finance, operate and maintain new and updated infrastructure at the Iqaluit International Airport. The design and construction components are scheduled to be completed by December 2017. The estimated cost of the project is \$305,376. \$277,942 of the estimate represent costs incurred by the P3 proponent. The capital costs of the arrangement will be partially funded up to \$77,300 from PPP Canada Inc.

	<b>2017</b>	<b>2016</b>
<b>Total eligible costs incurred by P3 proponent</b>		
Balance, beginning of year	163,492	85,284
Eligible costs incurred during the year	57,300	78,208
Balance, end of year	<u>220,792</u>	<u>163,492</u>
<b>Total progress payments made by the Government</b>		
Balance, beginning of year	63,400	31,800
Progress payments made during the year	23,100	31,600
Balance, end of year	86,500	63,400
<b>Liability as at March 31</b>	<u>134,292</u>	<u>100,092</u>

Interest costs of \$7,349 were capitalized (2016 - \$6,516) as part of additions to tangible capital assets.

**15 CAPITAL LEASE OBLIGATIONS**

Capital lease obligations are based upon contractual minimum lease payments for the leases in effect as of March 31.

	<b>2017</b>	<b>2016</b>
Total minimum lease payments	35,649	46,341
Less: Imputed interest	(4,958)	(7,391)
Present value of minimum lease payments	<u>30,691</u>	<u>38,950</u>

Minimum lease payments, including principal and interest, for each of the next 5 years and thereafter are as follows:

	Principal	Interest	Total
2018	8,847	1,844	10,691
2019	9,477	1,214	10,691
2020	6,677	635	7,312
2021	954	366	1,320
2022	1,022	298	1,320
2023 and beyond	3,714	601	4,315
	<u>30,691</u>	<u>4,958</u>	<u>35,649</u>

Lease payments are allocated between repayment of the liability and interest expense. The total minimum lease payments less the initial liability represents the total interest cost of the lease. The interest expense is calculated using the same discount rate used in computing the present value of the minimum lease payments applied to the outstanding lease liability at the beginning of the lease payment period.

Interest expense related to capital lease obligations for the year was \$2,433 (2016 - \$2,980) at an implied average interest rate of 7.0% (2016 - 7.0%). The capital lease obligations expire between 2020 and 2027.

**16 NUNAVUT ENERGY MANAGEMENT PROGRAM PROJECT**

Project financing payable	<b>2017</b>	<b>2016</b>
	6,409	7,554

Under the Nunavut Energy Management Program Project, the government has entered into an energy savings contract arrangement that included an ongoing responsibility for making all principal and interest payments associated with the third-party financing of costs of improvements under the project. Payments are due monthly at \$139 to 2019, \$95 to 2022 and \$21 to July 2023 at an average interest rate of 5.13%.

Future payments consist of:	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2018	1,315	351	1,666
2019	1,400	266	1,666
2020	1,059	183	1,242
2021	1,018	123	1,141
2022	1,079	62	1,141
2023 and beyond	538	14	552
	<b>6,409</b>	<b>999</b>	<b>7,408</b>

Interest expense on the project for the year was \$432 (2016 - \$507).

**17 PETROLEUM PRODUCTS STABILIZATION FUND**

The Petroleum Products Stabilization Fund was created under the authority of the *Revolving Funds Act*. The purpose of the Fund is to stabilize the prices of petroleum products purchased, sold, and distributed by the Government. The net profit (loss) of the Petroleum Products Revolving Fund is charged to the Petroleum Products Stabilization Fund. The surplus or deficit balance in the fund cannot exceed \$10,000.

Surplus (deficit), beginning of year	<b>2017</b>	<b>2016</b>
	(7,691)	(10,000)
Petroleum Products Revolving Fund net profit (loss) for the year	21,168	2,309

**18 CONTRACTUAL OBLIGATIONS**

The Government has entered into agreements for, or is contractually obligated for, the following payments subsequent to March 31, 2017:

Operating leases (Schedule 5)	<b>Total</b>
	49,647
Capital commitments	89,235
Operational commitments	455,600
Policing agreement	602,055
Iqaluit International Airport Improvement commitments	1,106,522
	<b>2,303,059</b>
Contractual obligations by fiscal year are as follows:	
2018	367,759
2019	208,952
2020	132,095
2021	88,123
2022	81,180
2023 and beyond	1,424,950
	<b>2,303,059</b>

PUBLIC ACCOUNTS****Notes to Non-Consolidated Financial Statements (unaudited)****March 31, 2017***(in thousands of dollars)*

---

**19 CONTINGENCIES****(a) Post-division adjustments**

The agreement governing the division of assets and liabilities between the Government of Nunavut and the Government of the Northwest Territories as at April 1, 1999 sets out a mechanism which provides for post-division adjustments.

The period for such adjustments is unlimited; and such adjustments could be made in a variety of specified circumstances such as the settlement of litigation related to events prior to the date of division. In such an event, there is an opportunity for one of the governments to file a claim against the other government to share in costs. Post-division adjustments will be recognized in the year the liability can reasonably be estimated. As at March 31, 2017, no new post-division adjustments were recorded.

**(b) Environmental Protection Compliance Orders**

Petroleum Products Division (PPD) received Environmental Protection Compliance Orders (EPCOs) from Environment Canada related to contraventions of regulations for storage tank systems for petroleum products at selected facilities in Rankin Inlet, Whale Cove, Iqaluit and Sanikiluaq. Those regulations provide for penalties for continued contravention by failure to address EPCOs. The Iqaluit, Rankin Inlet and Sanikiluaq projects were completed in the fall of 2016. Compliance with the regulations at the Government's remaining storage tank farms facilities is expected to be completed over the years 2016 to 2021. Environment Canada has agreed to postpone further enforcement action pending satisfactory completion of the work as scheduled.

Qulliq Energy Corporation (QEC) received a draft Environmental Protection Compliance Order (EPCO) from Environment Canada related to contraventions of regulations for storage tank systems for petroleum products at the Corporation's facilities in Cambridge Bay. The Corporation has been given until December 2017 to complete the requested corrective measures.

**(c) Litigation**

A number of cases of alleged sexual abuse by former employees or contractors in Nunavut when it was part of the Northwest Territories have been filed or are pending. The Nunavut and the Northwest Territories governments will jointly defend any such proceedings and the cost of defending the actions and any damages that may eventually be awarded will be shared by the two governments 44.34% and 55.66%, respectively. An estimate of any liability that may result from these actions is not determinable at this time; consequently no liability has been accrued.

There are a number of claims and threatened litigation cases outstanding against the Government for which the outcomes are not determinable, including a number of cases where an amount is not specified. The nature of these claims include wrongful dismissal, breach of policy, personal injury, sexual abuse, negligence, wrongful arrest and assault. As of March 31, 2017, all of these claims have been assessed as being either without merit or not determinable at this time.

**(d) Loan guarantees**

As part of its financing, the Qulliq Energy Corporation (QEC) has arranged various credit facilities at different terms and interest rates. The Government has guaranteed the following QEC credit facilities:

	<b>2017</b>	<b>2016</b>
Bank credit facility, interest at prime minus 0.50%	8,393	10,901
20 year redeemable amortizing debenture due September 2021, interest rate of 6.809%	33,048	36,326
Fixed rate capital loan facility due May 2021, interest rate of 4.24%	1,906	2,318
Fixed rate capital loan facility due May 2021, interest rate of 4.24%	2,436	2,960
Fixed rate capital loan facility due June 2021, interest rate of 4.24%	3,438	4,168
Fixed rate capital loan facility due February 2022, interest rate of 4.24%	3,919	4,104
Fixed rate capital loan facility due July 2021, interest rate of 4.24%	6,302	7,602
Variable rate capital loan facility due November 2022, interest at prime minus 0.50%	15,667	16,667
Variable rate capital loan facility due April 2024, interest at prime minus 0.50%	13,667	14,466
Variable rate capital loan facility due April 2027, interest at prime minus 0.50%	54,576	36,753
<b>Total guarantees provided on balances outstanding</b>	<b>143,352</b>	<b>136,265</b>

The QEC bank credit facility limit is \$20,000 (2016 - \$20,000). The non-revolving committed and bridge loan facilities above each has an option to utilize BAs with stamping fees calculated at 50 bps per annum with terms not less than 7 days and not more than 365 days and issued and reissued in minimum aggregate amounts of Canadian \$1,000 and multiples thereof.

Based on its operational needs, the Nunavut Development Corporation (NDC) may from time to time be in a bank overdraft position. The overdraft is guaranteed by the Government, and interest on the overdraft is charged based on a rate of prime plus 0.50% per annum. Interest is charged only when NDC's operating account is in an overdraft position and the pooled accounts of the Government are also in an overdraft position. As at March 31, 2017, NDC's bank overdraft position was \$nil (2016 - \$nil).

**20 RELATED PARTIES**

Transactions with related parties and balances at year-end, not disclosed elsewhere in the financial statements, are disclosed in this note. During the year, the Government made grants and contributions to or funded other costs for the following related parties:

	<b>2017</b>	<b>2016</b>
Nunavut Arctic College	3,342	2,628
District Education Authorities	12,785	12,676
Nunavut Development Corporation	3,522	3,549
Nunavut Business Credit Corporation	700	629
	<hr/> 20,349	<hr/> 19,482

Under agreements with related boards and agencies, the Government provides services at cost or for a service fee where direct costs cannot be determined. The fees charged for indirect costs are not necessarily the cost of providing those services. Services provided include personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal, and interpretation services. Direct costs of \$47,558 (2016 - \$44,934) were incurred and recovered from related parties. Grants and contributions from the Government of Nunavut to Nunavut Arctic College and Nunavut Housing Corporation are disclosed separately in the Schedule of Expenses Funded under Approved Appropriations (Schedule B.1).

**21 TRUSTS UNDER ADMINISTRATION**

The Government administers trust accounts on behalf of third parties, which are not included in the reported Government assets and liabilities.

	<b>2017</b>	<b>2016</b>
Public Trustee	4,805	4,825
Territorial Court Trust	488	363
Natural Resources Conservation Trust	624	402
	<hr/> 5,917	<hr/> 5,590

**22 BUDGET ADJUSTMENTS**

The budgeted deficit of \$9,931 on the Statement of Operations and Net Assets is \$1,144 less than the deficit of \$11,075 indicated on page x of the 2016-17 Main Estimates. This represents the principal repayments on Nunavut Energy Management Program project made during the year, and do not represent expenses under Canadian public sector accounting standards.

The 2017 total revenue budget of \$1,824,748 includes \$1,738,000 of 'Revenues' and \$80,821 of 'Vote 5 Revenues' on page A-IV-4 of the 2016-2017 Main Estimates, plus \$5,927 of funding under third-party agreements for specific capital projects included in Appendix IV of the 2016-2017 Capital Estimates. The planned expenses to be funded by these additional revenues have been added to the affected budget totals disclosed in these statements.

The 2017 budget total for capital expenditures on Schedule B.2 of \$5,927 excludes the \$4,290 of CMHC capital projects budgeted for Nunavut Housing Corporation presented in Appendix IV (page A-IV-5) of the 2016-2017 Capital Estimates. As a result, the budget totals for 'Vote 4 Expenses' and 'Vote 5 Revenues' (i.e., Transfers under third-party funding agreements) included in these statements is \$86,748 versus \$91,038 on page x of the 2016-2017 Main Estimates.

**23 COMPARATIVE INFORMATION**

Certain comparative figures have been reclassified to conform to the current year's presentation.

**24 SUBSEQUENT EVENTS**

On June 30, 2017, the Government signed amending and extension agreements on various leased buildings accounted for in the capital lease obligations balance in these financial statements. Under the new agreements, the term of the leases are being extended for 10 years at which time the government will assume ownership, the rent payments required are being modified and the government is assuming responsibility of the ongoing maintenance of the properties. The government's revised capital lease obligations under these new agreements was estimated at \$68.5 million and will be accounted for in the March 31, 2018 fiscal year.
