

refers to all services rendered by medical practitioners that are medically required, and are included in the Nunavut Health Insurance Plan's fee schedule of insured benefits which can be found in the Medical Care Regulations. Where the insured service is unavailable in Nunavut, patients are referred to another jurisdiction to obtain the insured service. No new services were added or deleted to the listing of insured services in 2016/2017. The *Nursing Act* allows for licensure of nurse practitioners in Nunavut; this permits nurse practitioners to deliver insured physician services in Nunavut.

Physicians must be licensed to practice in Nunavut. The Department's Professional Practice Division, located in Kugluktuk, administers the registration and licensing process for Nunavut physicians through a Medical Registration Committee.

The following is a comprehensive list of insured categories as per Nunavut's Medical Care Regulations. Services provided under these categories are considered insured if the medically required diagnosis and/or treatment is provided in- territory or out of territory.

- Anesthesiology
- Cardio-Thoracic and Vascular Surgery
- Dermatology
- General Practitioner
- Gynecology
- General Surgery
- Internal Medicine
- Neurology
- Obstetrics
- Ophthalmology
- Otolaryngology
- Orthopedics
- Pediatrics
- Plastic Surgery (not cosmetic)
- Psychiatry
- Radiology
- Urology

Visiting specialists, general practitioners and locums, through arrangements made by each of the Department's three regions and Qikiqtani General Hospital, also provide insured physician services in territory.

The following in-territory specialist services were provided under the visiting specialists program: ophthalmology, orthopedics, internal medicine, otolaryngology, neurology, rheumatology, dermatology, pediatrics, obstetrics, psychiatry, oral surgery, and allergy. Visiting specialist clinics were held depending on referrals by Nunavut physicians and availability of specialists.

Uninsured Physician Services

Only services prescribed by, and rendered in accordance with, the Act and regulations, and the *Hospital Insurance and Health and Social Services Administration Act* and regulations, are insured.

All other services, including physician services that are not medically necessary, are considered uninsured. Services provided under the Workers Safety and Compensation Commission (WSCC) and any other federal or territorial legislation are not insured under the Nunavut Health Insurance Plan.

Insured Services Provided in Canada (Outside of Nunavut)

The Act, Section 4(2), prescribes the benefits payable when insured medical services are provided outside Nunavut, but within Canada.

Nunavut has physician reciprocal billing agreements with all provinces and territories (with the exception of Quebec, where physicians bill directly for fee for service). These agreements provide payment of insured services on behalf of eligible Nunavut residents receiving insured services outside of the Territory.

In 2016/2017 a total of \$8,911,000 was paid for physician services provided outside of the Territory.

Insured Services Provided outside Canada

The *Medical Care Act*, Section 4(3), prescribes the benefits payable when insured medical services are provided outside Canada. When Nunavut residents become ill and require a health service while travelling for pleasure or business, insured physician services are paid at rates equivalent to those paid if the service had been provided in Nunavut.

In 2016/2017, a total of \$718.00 was paid for physician services provided outside of Canada.

In 2016/2017 there were no patients medically referred outside of the country for health services.
