## INTRODUCTION: THE 2013 – 2014 MAIN ESTIMATES

The Main Estimates presented to the Legislative Assembly represent the Government of Nunavut's proposed appropriations for the 2013-2014 fiscal year for planned operations and maintenance expenditures. The Main Estimates reflect the priorities of government and are also consistent with departmental Business Plans. The Main Estimates detail all expenditures projected to be incurred and all revenues projected to be earned, during the twelve-month period beginning April 1, 2013 and ending March 31, 2014.

This document, along with the Budget Address, Capital Estimates, and departmental Business Plans, constitute the 2013-2014 Budget of the Government of Nunavut.

The Government implemented the accrual based budgeting method on a non-consolidated basis in fiscal year 2007-2008. The accrual based budgeting method conforms to generally accepted accounting principles (GAAP) used in financial reporting, which allows the comparison of budget and actual information on a consistent basis. As the public accounts are prepared in conformity with GAAP, the accrual based budgeting method will permit relevant comparative analysis. The following Summary Financial Reports have been included in the 2013-2014 Main Estimates:

- **Summary of Operations:** expenditures based on an accrual basis, which includes capital expenditures not transferred to tangible capital assets, interest portion of lease payments and amortization of capital assets.
- **Summary of Cash Flows:** provides information on how the activities of the Government have been financed and how its financial resources have been used during the fiscal year on a cash basis.
- **Summary of Changes in Net Debt:** reconciles surplus/deficit income used in the acquisition of capital tangible assets recorded in the financial statements.

The three summaries listed above are the first step in implementing the accrual based budgeting method and include accounting for revolving funds not included in the Summaries of Operations and Maintenance and Capital Expenditures. This treatment is consistent with reporting by Government Accounting, which includes revolving funds in the Public Accounts. The three summaries should be considered strictly for information purposes only.

Amortization expenses have been included in the departmental summary as a non-voted item in the 2013-2014 Main Estimates.

The Legislative Assembly approved the *Appropriation (Capital) Act, 2013-2014* in October 2012. This authorizes the Government of Nunavut to make capital expenditures for the fiscal year ending March 31, 2014.

The Legislative Assembly is requested to appropriate funds at the departmental level for operations and maintenance expenditures for the fiscal year ending March 31, 2014. The estimated expenditures identify the total operating requirements for individual departments, and additional descriptive information on departmental expenditures is provided by branch. Basic descriptions of these departmental branches are included in the Main Estimates to enhance the understanding of public expenditures and ongoing responsibilities of program managers.

This document provides the Legislative Assembly with information on operations and maintenance expenditures at the control object level for compensation and benefits, and grants and contributions and at

the standard object level for other expenditures. Revenue is presented at a summary level by major revenue category.

Detailed information relevant to the Main Estimates is provided in the following areas for each department, as applicable:

- Accounting Structure Chart (how the department's financial accounts are organized)
- Department Summary (including mission and graph on the allocation of proposed expenditures to major branches)
- Branch Summary (appropriation requirements by control object and standard object)
- Grants and Contributions
- Information Items
- Regional Distribution of Budget

Departmental three-year expenditure forecasts have been included in Appendix III of the 2013-2014 Main Estimates as a first step in moving towards a three-year planning horizon.

The financial information in the Main Estimates is presented on a comparative basis, at the government, department and branch level for the 2012-2013 Main Estimates, 2012-2013 Revised Estimates and 2011-2012 Actual Expenditures. The 2012-2013 Revised Estimates includes the 2012-2013 Main Estimates and the approved 2012-2013 *Supplementary Appropriation (O&M) Act* No. 1 and No. 2. The 2012-2013 Revised Estimates for capital expenditures have been updated to include appropriations approved through the 2012-2013 *Supplementary Appropriation (Capital) Act* No. 1 to No. 3. The 2011-2012 Actual Expenditures are as reflected in the 2011-2012 Interim Financial Statements and includes any departmental adjustments made after tabling of the Interim Financial Statements. Where the information contained in the Actual Expenditures does not match the information contained in the Interim Financial Statements, the information in the Interim Financial Statements must be used.

In order to maintain the relevancy of the comparative figures, the 2012-2013 Main Estimates, 2012-2013 Revised Estimates and 2011-2012 Actual Expenditures have been restated to conform with changes to the accounting structure of departments, transfers of functions between departments, the creation of Family Services Department and transfers of functions between branches within departments. Appendix V details the restatements required to the 2012-2013 Main Estimates and 2012-2013 Revised Estimates resulting from the transfer of functions between departments, dissolution of the Human Resources Department and the creation of the Department of Family Services.

## NUNAVUT LIQUOR LICENSING BOARD

The Nunavut Liquor Licensing Board (NLLB) is an administrative tribunal that has a general responsibility to control the conduct of license holders, control the management of equipment of licensed premises and set conditions under which liquor can be sold or consumed on licensed premises under the *Liquor Act*. Funds needed for expenditures for the purposes of the NLLB come from monies appropriated for that purpose. That appropriation is part of the Department of Justice, Court Services branch. All monies received by the NLLB through license fees, permits, and other monies (e.g. fines) are deposited to the Consolidated Revenue Fund of the Government of Nunavut; they are not used to offset the operating expenses of the NLLB.

## **MISSION**

To contribute to Nunavut's economic growth and social well-being by ensuring effective planning, procurement, delivery and operation of government assets while providing services that satisfy the needs of our clients.

## **NUNAVUT LIQUOR MANAGEMENT**

Nunavut Liquor Management includes two distinct and separate functional areas. The Liquor Commission, also a public agency, is the procurement and distribution arm. All revenues and expenses related to the Commission flow through the Liquor Revolving Fund of the Government of Nunavut. Liquor Enforcement and Inspections is a division within the Department of Finance, Directorate branch. Enforcement and Inspections ensures that the decisions of the Nunavut Liquor Licensing Board are implemented and that license holders comply with the requirements of the *Liquor Act* and its Regulations. Because of these two distinct roles, the budgets presented in this Information Item are not consolidated into one summary budget for Nunavut Liquor Management.

## NUNAVUT LIQUOR COMMISSION

The Nunavut Liquor Commission is responsible for the purchasing, warehousing and distribution of all alcohol products in the territory of Nunavut. Sales of liquor products are deposited to the Liquor Revolving Fund, which has an authorized limit of \$6.5 million. All expenses incurred with respect to the Liquor Commission are paid out of the Liquor Revolving Fund. The Commission is headquartered in Rankin Inlet, with warehouses in Rankin Inlet and Iqaluit.

## **APPENDIX II: BUDGET DEVELOPMENT PROCESS**

## BUDGET DEVELOPMENT PROCESS

### Introduction

In general terms, the Main Estimates reflect the Government of Nunavut's plan of action for the upcoming fiscal year. Specifically, the Main Estimates represent all anticipated expenditures for the fiscal year which commences April 1.

The Main Estimates seek appropriation authority for a fiscal year. The Budget Address, presented by the Minister of Finance at the time of presentation of the Main Estimates, is an integral part of the total budget package. In addition, the departmental Business Plans are tabled in the Legislative Assembly.

Many individuals and organizations, both from within the government and from the public, have been consulted during the planning and development stages of the budget process. However, the exact content of the Main Estimates is not public until tabled in the Legislative Assembly by the Minister of Finance. Traditionally, the budget presentation process prevents special interest advantages being obtained through advance information on government fiscal initiatives.

### This Budget Development Process has several phases:

- Business Plan Development
- Main Estimates / Capital Estimates Development
- Budget Address Development
- Presentation to the Legislative Assembly
- Supplementary Estimates
- Results Reporting / Variance Reporting

### Business Plan Development

- The 2013-2016 Business Plan highlights GN programs in the core business section.
- The appendix to the Core Business section for each department and agency in the Business Plan provides a link from the program structure to the accounting structure used in the Main Estimates.
- The Business Plan focuses primarily on Vote 1 - Operations and Maintenance expenditures.
- The Business Plan is submitted to Executive Council for consideration.
- After Executive Council, the Business Plan is referred to Standing Committees for consideration.
- The Business Plan is tabled in the Legislative Assembly with the Main Estimates.

**Main Estimates/Capital Estimates Development**

- Departments are responsible for the development of their budgets within targets and guidelines established by FMB.
- Departmental information is divided into two separate documents by the Department of Finance to produce the Main Estimates which are tabled in the Legislative Assembly during the winter session, and Capital Estimates which are tabled during the fall session.
- FMB reviews the Main Estimates/Capital Estimates.
- FMB approves draft Main Estimates that are forwarded to Standing Committees, prior to the winter session.
- FMB approves draft Capital Estimates that are forwarded to Standing Committees, prior to the fall session.

**Budget Address Development**

- The Department of Finance drafts the text of the Budget Address.
- The Budget Address outlines trends, anticipated developments, and the Government's action plan for the upcoming fiscal year.
- The Budget Address highlights new program initiatives, the impact of government activities, economic information, and fiscal details.

**Presentation to the Legislative Assembly**

- Standing Committees meet prior to the presentation of the Main Estimates/Capital Estimates. Standing Committees review draft business plans and the proposed budget.
- Standing Committees prepare a report to be presented to the Legislative Assembly.
- After the Budget Address, the Main Estimates are publicly released.
- The Capital Estimates for the following fiscal year are tabled in the fall session.

**Supplementary Estimates**

- Supplementary Estimates are required to authorize increases or decreases in departmental spending.
- Supplementary Estimates must be approved by the Legislative Assembly.
- Supplementary Estimates include all Special Warrants, which have been signed by the Commissioner to provide advanced spending authority for funding requirements that meet the criteria set out in the *Financial Administration Act*.

**Results Reporting / Variance Reporting**

- Departments are required to regularly report their fiscal situation to Financial Management Board. This includes variance reports on a year-to-date basis for expenditures.
- At the end of the fiscal year, departments are required to report to the Legislative Assembly.
