### Notes:

1. Total custodial admissions are totals of sentenced (including intermittent sentences), remand and other custodial status admissions.
2. Total community admissions are the sum of probation, conditional sentence, and other community programs.
3. Other community programs includes for example, community service orders, provincial paroles (Quebec and Ontario), fine option programs, bail supervision and restitution orders. Due to limitations and differences among jurisdictional programs, inter-jurisdictional comparisons of the data should be made with caution
