

19. Visitors

Visitors to health care settings should:

- Be aware of restrictions to visitation due to outbreak or other conditions within the facility. This may be communicated with door signs, public radio announcements or other means
- Be aware (through appropriate placement of signs) how and when to perform hand hygiene.
- Be directed to check with nurses when visiting a patient in a room with Additional Precautions.
- Receive education on how to wear PPE if visiting a patient in a room with Additional Precautions.
