### Job Description

Reporting to the Supervisor Health Programs, the Nurse Practitioner (NP) provides and autonomously manages health assessment, diagnosis, intervention and follow -up care to the residents of their community in accordance with Nurse Practitioner Acts, regulations, policies, standards, mission and the objectives of the Department of Health and the Government of Nunavut. The position ensures clients receive timely health assessment and diagnosis optimum support and continuity of care.

The NP provides a comprehensive community health service in conjunction with the health care team and works within the context of Primary Health Care to improve the capacity of clients and communities.

The NP provides professional nursing care and community health services to clients (individuals, families and groups) on a routine and emergency basis to promote a healthy lifestyle, to prevent and/or reduce incidence of disease, disability and death, to support rehabilitation and to restore health and palliation. Develop, facilitate, implement and modify client and family education/teaching based on the needs of the client. In collaboration and partnership with clients and other primary care team members and agencies, conduct health surveillance and preventive activities that may improve the health population. Provide expert and specialized knowledge of primary health care related to nursing in Nunavut and also provide functional direction and leadership for enhancing the integrated service delivery model.
