

Measures for the Kivalliq Region

November 18, 2020

Travel

- Travel between communities by any means is restricted to people on medical evacuation flights, emergency service personnel, flight crews, hunters, those on flight layovers of less than 90 minutes, and people with a letter of authorization from the Chief Public Health Officer.
 - o Nunavut Inuit may exercise their hunting rights and leave their home community but must not travel to any other community during this time.
- Travel outside of the Kivalliq region is restricted to medical travel clients and their escorts, hunters, and people with a letter of authorization from the Chief Public Health Officer.

Gatherings

- Masks must be worn in all public places.
- Outdoor gatherings are restricted to five people.
- Indoor gatherings are restricted to a household plus five people.
- Individuals must maintain a distance of 2m from others in public other than members of their immediate household.

Food service and licensed establishments

- Food service establishments may continue to operate for take-out and delivery services.
 - o There must be 2m distance between people in line for take-out, and no more than 10 people in a line-up at any given time.
- All licenced premises must close.

Long term care, continuing care and medical boarding homes

- Long term care facilities, continuing care centres and medical boarding homes are closed to visitors.
