

Public Health Advisory Boil Water Advisory – Baker Lake

September 26, 2019 Baker Lake, Nunavut

45 sec

The Department of Health is issuing a boil water advisory for the Hamlet of Baker Lake.

This is a precautionary measure due to high turbidity levels.

During a boil water advisory all water for consumption must be brought to a rolling boil for a **minimum** of one full minute.

It is essential that all water be boiled for the following uses:

- drinking
- preparing infant formulas
- preparing juices and ice cubes
- · washing fruits and vegetables
- cooking; and
- brushing of teeth.

Water can be boiled either in a pot or kettle on a stove or an electric kettle without an automatic shut-off.

It is not necessary to boil water used for anything other than the above list.
