Paramountcy

4.2 Nothing in the Devolution Agreement shall be construed so as to prevent an Act of Parliament from prevailing over territorial Legislation to the extent of any conflict between them.

Indemnities

4.3 The Devolution Agreement will contain such indemnities as the Parties may agree.

Appropriation of Funds

4.4 The GC’s obligations to pay any amount of money pursuant to the Devolution Agreement, including any amount contemplated in Chapter 12 of this AIP, shall at all times be subject to the appropriation of funds by Parliament.

For greater certainty, the conclusion of this component of the Northwest Territories Oil and Gas Accord is without prejudice to the conclusion of other components relating to subject matters originally contemplated as being included in such Accord but not settled in this Agreement.

Remediation Standards

8.16 Remediation for which the GC is responsible under the Devolution Agreement shall, on first instance, be based on those standards contained in applicable federal Legislation in respect of a hazard to the environment, human health or safety as such standards exist, or existed, at the time such Remediation is, or was, performed.

8.17 Where no applicable standards referred to in section 8.16 exist, or existed, at the time Remediation for which the GC is responsible is, or was, performed, such Remediation shall be, or have been, based on those standards contained in the:
(a) CCME Guidelines in conjunction with the risk assessment framework set out in such guidelines, or
(b) AMSRP.

8.18 In respect of Remediation carried out by the GC after the Transfer Date, where no applicable standards referred to in sections 8.16 and 8.17 exist, or existed, at the time Remediation for which the GC is responsible is, or was, performed, then standards contained in applicable territorial Legislation in respect of a hazard to the environment, human health or safety as such standards exist at the time such Remediation is, or was, performed shall apply.

8.19 Where no applicable standards referred to in sections 8.16, 8.17 and 8.18 exist the standards applied shall be those agreed to by the GC and the GN in Consultation with NTI.

8.21 The Devolution Agreement shall provide that the GC and the GN shall Consult each other and NTI prior to introducing Legislation to adopt or vary standards for use in Remediation.

Operating Sites

8.22 The Devolution Agreement shall provide that the GC shall be deemed to be immediately released from any obligation in respect of any Operating Site and such site shall be a Released Site as of the earlier of:

(a) the extension or renewal of any lease, licence, permit or other right or interest in respect of an Operating Site existing at the Transfer Date where the GN had the authority not to extend or renew such lease, licence, permit or other right or interest; or
(b) the seventh anniversary of the Transfer date.

8.23 Subject to section 8.22 where:

(a) an Operating Site on Public Lands becomes an Abandoned Site; or
(b) there is an Insolvency Event in respect of an Operating Site on Public Lands which results in that Operating Site becoming an Abandoned Site;

then, upon that site becoming an Abandoned Site (an “Abandoned Operating Site”), the GC’s responsibility in respect of Remediation at such Abandoned Operating Site shall be determined pursuant to sections 8.39 to 8.50.
8.24 The Devolution Agreement shall provide that the GN shall diligently pursue all reasonable means (including reasonable legal means) available to it, to recover any debt owed to it or to realize any proceeds available to it, in proceedings in the course of an Insolvency Event in respect of an Operating Site or an Abandoned Operating Site.

8.25 Where the GC and GN determine it to be expedient or otherwise desirable, they may enter into a subrogation agreement to allow the GC to pursue debts owed to the GN or proceeds of an Insolvency Event available to the GN.

8.26 The Devolution Agreement shall provide that the GN shall as soon as practicable pay to the GC an amount equal to any debts recovered or proceeds realized by the GN in respect of an Abandoned Operating Site which are attributable to an Alteration Requiring Remediation at that Abandoned Operating Site for which the GC is responsible pursuant to the Devolution Agreement, less any direct costs incurred by the GN in recovering such debt or realizing on such proceeds.

8.27 The Devolution Agreement shall provide that the GN shall as soon as practicable pay to the GC an amount equal to any security assigned to the GN pursuant to the Devolution Agreement and relating to Remediation obligations in respect of an Abandoned Operating Site which has been determined to be a New Site Requiring Remediation pursuant to sections 8.42, 8.47 or 8.65.

8.28 Where amounts have been recovered as contemplated in sections 8.24, 8.25 and 8.26, the GC shall undertake or provide for care and maintenance or for the commencement of Remediation of the related Abandoned Operating Site or New Site Requiring Remediation as the case may be:

(a) as soon as practicable,

(b) in a manner that is protective of human health and safety and the environment, and

(c) that results in the amounts recovered as described in this section 8.28 being allocated to the care and maintenance or Remediation of the Abandoned Operating Site or New Site Requiring Remediation related to the funds recovered, as the case may be.

**Sites Requiring Remediation**

8.29 The Devolution Agreement shall provide that all Sites Requiring Remediation as at the Transfer Date shall be excluded from the transfer of administration and control referred to in section 5.1 and shall be included in the inventory of exclusions referred to in section 5.25.

8.30 Except as otherwise provided in the Devolution Agreement, the GC shall be responsible for the Remediation of any Alteration Requiring Remediation at each Site Requiring Remediation.
New Sites Requiring Remediation

8.31 Except as otherwise provided in the Devolution Agreement, at each New Site Requiring Remediation the GC shall be responsible for the Remediation of any Alteration Requiring Remediation which existed on Public Lands prior to the Transfer Date.

8.32 Notwithstanding section 8.31, the GC shall not be required to Remediate any Alteration at any New Site Requiring Remediation where, after the Transfer Date, the GN could reasonably have taken measures that would have prevented the Alteration from becoming an Alteration Requiring Remediation. Any dispute regarding issues arising from this section shall be determined pursuant to the process described in sections 8.46 to 8.50.

8.33 If it is determined that an Abandoned Operating Site, Unlisted Site or a Remediated Site is a New Site Requiring Remediation, then the GC may request, in writing to the GN, that the Commissioner relinquish to the GC the administration and control of such New Site Requiring Remediation in order that the GC may Manage the New Site Requiring Remediation as contemplated by this Agreement in Principle. Where the Management by the GC results in the Remediation of the New Site Requiring Remediation, the site shall become a Remediated Site.

8.34 The Devolution Agreement shall provide that a Party shall designate, in the schedule referred to in section 4.22, an individual for the purposes of the receipt of any notice to be given or communication made to a Party pursuant to this chapter.

8.35 The written request referred to in section 8.33 shall describe the boundary of the site the GC is requesting the Commissioner to relinquish, which boundary shall encompass the Alterations Requiring Remediation and, where practicable, be based on any existing mineral claims or other existing grants of right.

8.36 The Commissioner shall relinquish to the GC the administration and control of a New Site Requiring Remediation within 180 days from the date of the request referred to in section 8.33 in respect of such site, failing which the GC shall be deemed to be released of any further obligation in respect of that site and the site shall be a Released Site.

Remediated Sites

8.37 The Devolution Agreement shall provide that a Site Requiring Remediation or a New Site Requiring Remediation, shall be a Remediated Site if, in respect of such site:

(a) no further Remediation is required based on the results of assessment work such as a Phase I and II Environmental Site Assessments; and

(b) the completion of the Remediation of all of the Alterations Requiring Remediation has occurred including, for certainty, that:

(i) Remediation objectives have been confirmed to have been met; and
(ii) any required long-term Management and long term termination criteria have been met.

8.38 Upon completion of the Remediation of a Site Requiring Remediation or a New Site Requiring Remediation, the GC shall provide to the GN the following information:

(a) the location and dimensions of the site;
(b) the nature of any Alteration so Remediated;
(c) the measures undertaken to Remediate such Alteration; and
(d) recommendations in respect of ongoing Management of Remediation features, if any.

Rights to Assert Remediation Required

8.39 The Devolution Agreement shall provide that after the Transfer Date, the GN may assert by providing written notice in respect of any Abandoned Operating Site or Unlisted Site on Public Lands that there is an Alteration Requiring Remediation at such site and the GN shall provide evidence to the GC in support of this assertion.

8.40 The evidence required from the GN pursuant to section 8.39 shall include either completed Phase I and II Environmental Site Assessments pursuant to the then current Canadian Standards Association standards for such assessments or information of a nature that is substantially similar in form and content to that contained in such Phase I and II Environmental Site Assessments.

8.41 The GC’s responsibility to Remediate any Alteration Requiring Remediation at any Abandoned Operating Site, as asserted by the GN pursuant to section 8.39, shall be subject at all times to demonstration by the GN that it has diligently pursued all reasonable means (including reasonable legal means) available to allocate responsibility for such Remediation to a person other than the GC including an Operator or a former Operator.

8.42 The GC shall review the evidence provided pursuant to section 8.39 and Consult with the GN regarding this evidence and the assertion of the GN referred to in section 8.39, following which the GC shall determine that:

(a) further evidence is required to make a determination of the status of the site in question;
(b) the Abandoned Operating Site is a New Site Requiring Remediation where:
(i) the GC is of the opinion that there is an Alteration Requiring Remediation at the site which existed on Public Lands prior to the Transfer Date; and
(ii) the GC is satisfied that the GN has met the obligation in section 8.41 to diligently pursue all reasonable means (including reasonable legal means) available to allocate responsibility for Remediation of such Alteration Requiring Remediation to a person other than the GC, including an Operator or a former Operator; or

(c) the Unlisted Site is a New Site Requiring Remediation where:

(i) the GC is of the opinion that there is an Alteration Requiring Remediation at the site which existed on Public Lands prior to the Transfer Date; and

(ii) the GC is satisfied that the site was an Abandoned Site as at the Transfer Date.

8.43 The GC shall notify the GN of its determination pursuant to section 8.42 that the Abandoned Operating Site or Unlisted Site is or is not a New Site Requiring Remediation.

8.44 Where the GC determines pursuant to section 8.42 that an Abandoned Operating Site or Unlisted Site is a New Site Requiring Remediation, such site shall as of the date of such determination be a New Site Requiring Remediation.

Disputes as to Whether Remediation Required

8.45 The Devolution Agreement shall provide that where the GC determines pursuant to section 8.42 that an Abandoned Operating Site or Unlisted site is not a New Site Requiring Remediation, and the GN does not agree with the GC’s determination, the GN may refer the matter for resolution pursuant to the process set out in sections 8.46 to 8.50.

8.46 A dispute resolution panel shall be constituted of three members, selected as follows:

(a) one representative selected by the GN;

(b) one representative selected by the GC; and

(c) one independent expert, qualified by education and experience to review such determination, jointly selected by the GC and the GN.

8.47 In the case of a matter referred for resolution by the GN pursuant to section 8.45, the dispute resolution panel shall review relevant evidence and the submissions of the Parties to the dispute regarding the Abandoned Operating Site or Unlisted Site and shall determine that:

(a) the Abandoned Operating Site is a New Site Requiring Remediation where at least two of the members of the panel conclude that:
(i) there is an Alteration Requiring Remediation at the site which existed on Public Lands prior to the Transfer Date; and

(ii) the GN has met the obligation in section 8.41 to diligently pursue all reasonable means (including reasonable legal means) available to it to allocate responsibility for Remediation of such Alteration Requiring Remediation to a person other than the GC, including an Operator or a former Operator; or

(b) the Unlisted Site is a New Site Requiring Remediation where at least two of the members of the panel conclude that:

(i) there is an Alteration Requiring Remediation at the site which existed on Public Lands prior to the Transfer Date; and

(ii) the GN has established that the site was an Abandoned Site as at the Transfer Date.

8.48 Where the dispute resolution panel determines pursuant to section 8.48 that an Abandoned Operating Site or Unlisted Site is a New Site Requiring Remediation, such site shall as of the date of such determination be a New Site Requiring Remediation.

8.49 The independent expert referred to in subsection 8.46(c) shall notify the GC and the GN of the determination of the dispute resolution panel pursuant to section 8.47.

8.50 Each party to the dispute shall pay for its own costs and the costs of the representative selected by such party pursuant to subsection 8.46(a) or 8.46(b) as the case may be, and shall share equally the costs associated with the independent expert selected pursuant to subsection 8.46(c).

**Transfer of Sites to Commissioner**

8.51 The Devolution Agreement shall provide that subject to the agreement of the GN, where a Remediated Site is situated on lands under the administration and control of the GC, the GC may transfer the administration and control of such Remediated Site to the Commissioner and, notwithstanding such transfer, the site shall continue to be a Remediated Site.

8.52 At any time following the Transfer Date, the GN may request of the GC in writing that the GC transfer to the Commissioner the administration and control of any Site Requiring Remediation, any New Site Requiring Remediation or any Remediated Site. Upon receipt of such request the GC shall, as soon as practicable, initiate the process to transfer administration and control of the site to the Commissioner and such site shall, from and after the date of such transfer, be a Released Site.
Non-Issuance of Rights

8.53 The Devolution Agreement shall provide that upon request from the GC, the GN shall prohibit the issuance of any interests or the authorization of the conduct of any activity under territorial Legislation at any New Site Requiring Remediation where the GC determines that such prohibition is required:

(a) to carry out or to minimize any Remediation required at that site; or

(b) to prevent any aggravation of any Alteration Requiring Remediation at that site.

8.54 The prohibition referred to in section 8.53 shall remain in effect at least until the GC notifies the GN that all Alterations Requiring Remediation at the site have been Remediated or until such other time as may be agreed upon by the GC and the GN.

Releases

8.55 The Devolution Agreement shall provide that following the Transfer Date, the GC shall be released of any responsibility for Remediation in respect of:

(a) Released Sites, subject to a determination pursuant to section 8.42 or 8.47 that a site is a New Site Requiring Remediation; and

(b) Remediated Sites, subject to the warranty referred to in section 8.59.

8.56 If the GN does not comply with a request by the GC for a prohibition pursuant to section 8.53 as soon as practicable, and in any event within 120 days, or the GN does not cause the prohibition to remain in effect until the GC notifies the GN that all Alterations Requiring Remediation at the site have been Remediated and such failure on the part of the GN to maintain the prohibition results in further Alterations at that site, the GC shall be deemed to be immediately released of any further obligation in respect of that New Site Requiring Remediation and such site shall be a Released Site.

8.57 Where the GN grants, issues, or renews any lease, licence, permit or other right or interest or authorizes or conducts any activity which results in a material interference with the current or future Remediation by the GC pursuant to the Devolution Agreement of any Alteration Requiring Remediation, the GC shall be deemed to be immediately released of any further Remediation obligation in relation to such Alteration Requiring Remediation.

8.58 Section 8.57 shall not apply to a grant, issuance or renewal in the circumstances that the GN had no authority to refuse such grant, issuance or renewal.
Warranty

8.59 The Devolution Agreement shall provide that the GC warrants in respect of any Remediated Site on Public Lands that as at the date the administration and control of such site was transferred to the Commissioner, all Alterations Requiring Remediation which existed on Public Lands at such Remediated Site prior to the Transfer Date have been Remediated in accordance with the Standards and Remediation processes applicable to such Alterations at the time the Remediation was carried out.

8.60 The Devolution Agreement shall provide that the warranty referred to in section 8.59 shall no longer apply where and to the extent that the GN renews, grants or issues any lease, licence, permit or other right or interest, or authorizes or conducts any activity, in respect of a Remediated Site, or any part thereof, which result in a material adverse effect to the condition of a Remediated Site, or any part thereof.

8.61 Section 8.60 shall not apply in the circumstances that the GN had no authority to refuse to renew, grant or issue any lease, licence, permit or other right or interest, or to authorize or conduct any activity, in respect of a Remediated Site, or any part thereof.

8.62 Where unauthorized activities have occurred from and after the Transfer Date at or about a Remediated Site to which the warranty referred to in section 8.59 applies, the GC shall be presumed to have met the warranty on any area at such Remediated Site materially affected by such unauthorized activities and the onus shall be on the GN to rebut such presumption.

8.63 The GC shall not be required to Remediate any Alteration in respect of which the warranty in section 8.59 no longer applies, including pursuant to section 8.60.

8.64 Where the GN asserts that the GC has not met the warranty set out in section 8.59, the GN shall, prior to seeking any other redress, request that the GC determine that the site is a New Site Requiring Remediation.

8.65 Where the GC receives a request pursuant to section 8.64 the GC shall determine that the site is a New Site Requiring Remediation if the GC agrees that the GC has not met the warranty set out in section 8.59.

Access by the GC

8.66 The Devolution Agreement shall provide that the GC shall have the right to access Public Lands and Waters and the right to use natural resources in or on Public Lands in order to fulfill its responsibilities in respect of the Management of Impacted Sites on Public Lands.
8.67 The Devolution Agreement shall provide that except as may otherwise be agreed by the GC and the GN there shall be no rental, fee, charge or other compensation payable by the GC for the exercise of the right of access or the use of natural resources pursuant to section 8.66 or for any cost incurred by the GN in relation to such natural resources or access.

8.68 Subject to section 8.69, prior to the exercise of a right of access or a right to use natural resources pursuant to section 8.66 the GC shall, as soon as practicable, provide notice thereof to the GN.

8.69 The GC shall not be required to provide the notice referred to in section 8.68 where the exercise of a right of access or a right to use natural resources is required on an urgent basis in order to protect human health or safety, property or the environment.

8.70 The obligations of the GC under the Devolution Agreement in respect of the Remediation of Alterations Requiring Remediation on Public Lands will be subject to the right of access to such lands and the right to use natural resources in or on such lands set out in section 8.66.

Economic Opportunities

8.71 The Devolution Agreement shall provide that the GC and the GN shall provide reasonable support and assistance to Inuit firms to enable them to compete for contracts related to the Remediation of Impacted Sites, in accordance with Article 24 of the Nunavut Agreement and for the GN, the Nunavuumi Nangminiaqtunik Ikajuuti Regulations (also known as the NNI regulations).

Security Held on Deposit

8.72 The Devolution Agreement shall provide that notwithstanding any other provision thereunder, the GC shall retain any security held on deposit at the Transfer Date in respect of a Site Requiring Remediation.

Impacted Sites Management Committee

8.73 The Devolution Agreement shall provide that as soon as practicable following the Transfer Date, the Parties shall establish an impacted sites management committee (the “ISMC”). The ISMC will review, discuss, consider, and provide advice and recommendations to the GC in respect of the Management of Impacted Sites for which the GC is legally responsible pursuant to the Devolution Agreement.

8.74 Prior to the signing of the Devolution Agreement the Parties shall develop the terms of reference for the ISMC. The ISMC terms of reference shall be a schedule to the Devolution Agreement and shall include:

(a) that the ISMC shall meet at least twice per year;
(b) that the GC shall provide an annual report to the ISMC which shall contain information in respect of:

(i) the status, progress, priorities and work-plan of Remediation activities of the GC;

(ii) how any effects or anticipated effects of climate change on Remediation activities have been taken into account by the GC;

(iii) a summary of the method and amount of natural resources used in accordance with section 8.66; and

(iv) the Standards used for the Remediation activities by the GC;

(c) that the ISMC shall consider the implications of climate change for the Management of Impacted Sites for which the GC is legally responsible; and

(d) that the ISMC shall provide suggested advice, recommendations and priorities related to Remediation to the GC for consideration.

8.75 The GC shall consider any advice and recommendations of the ISMC, including any dissenting advice and recommendations, before making a decision in respect of any matter contemplated in section 8.74.

8.76 The Devolution Agreement shall provide that notwithstanding any provision thereunder, all decisions with respect to the Management of Impacted Sites by the GC and the prioritization of the Management of Impacted Sites and Remediation actions pursuant to the Devolution Agreement, shall be solely the responsibility of the GC.

Ten-Year Review

8.77 The Parties acknowledge that climate change is having and will continue to have an impact on Nunavut and that environmental changes resulting from climate change could have implications for the Management of Impacted Sites. Therefore, the Parties shall discuss the need for the Devolution Agreement to contain provisions to provide for a review ten years following the Transfer Date to determine if additional measures by the Parties are required to address the effects of climate change as they relate to the Management of Impacted Sites.

Other Arrangements

8.78 Nothing in the Devolution Agreement shall be construed to preclude the GC, GN and NTI, or any two of them from reaching a separate agreement respecting the Remediation of any Impacted Site. Any such separate agreement shall not affect any right of or impose any obligation on any Party not a party to such separate agreement.

CHAPTER 9
HUMAN RESOURCES DEVELOPMENT,
EMPLOYMENT AND ARTICLE 23

Human Resources Development Strategies

9.1 The Parties are committed to working cooperatively, within the time frames set out in sections 9.6 and 9.8, to develop and implement a Transitional Human Resources Development Strategy (the “Transitional Strategy”) utilizing the resources committed pursuant to section 12.14 of this AIP.

9.2 The GN and NTI shall develop and implement a Post-Devolution Human Resources Development Strategy (the “Post-Devolution Strategy”) within the time frames set out in sections 9.7 and 9.9 and utilizing the resources committed pursuant to section 12.19 of this AIP.

Principal Objective

9.3 The principal objective of the Transitional Strategy and the Post-Devolution Strategy (together and hereinafter the “Strategies”) is to maximize Inuit employment at all levels within the complement of positions that will be created in the GN as a result of devolution while ensuring that the GN will have the necessary human resource capacity to discharge the responsibilities it receives from the GC.

Relationship to Article 23 of the Nunavut Agreement

9.4 The Strategies shall recognize and be consistent with Article 23 of the Nunavut Agreement.

GN Organizational Design

9.5 The Parties acknowledge that the design of the GN organizational structure is an important dimension of human resources planning in relation to this Chapter 9.

Timing

9.6 The Parties shall work diligently and treat as a priority the completion and approval of the Transitional Strategy. The Parties shall complete and approve the Transitional Strategy within six months of the signing of the AIP.

9.7 The Devolution Agreement shall contain a timeline for the development of the Post-Devolution Strategy.

Duration

9.8 The Transitional Strategy, developed by the Parties, shall begin with the approval of the Transitional Strategy and end on the Transfer Date.
9.9 The Post-Devolution Strategy shall begin on the Transfer Date and shall be implemented over an initial period of time to be determined by the GN and NTI. Such initial period shall be not less than five years from the Transfer Date. Prior to the end of the initial period, the GN and NTI shall conduct a review to determine if there is a requirement for the Post-Devolution Strategy after the initial period. Any extension to the initial period shall provide for subsequent reviews to be conducted by the GN and NTI.

Elements of the Transitional Strategy

9.10 The Transitional Strategy shall include the following elements:

(a) **Oversight**: Terms of reference for a tripartite advisory committee to monitor the implementation of the Transitional Strategy and provide advice, guidance, and recommendations with respect to its delivery.

(b) **Program Management, Administration and Delivery**: A framework for program management, administration, and delivery of the Transitional Strategy which shall be based on the level of resources available.

(c) **Environment**: Recognition that the Transitional Strategy considers the current operating environment and the existing labour force of Nunavut.

(d) **Recruitment**:
   (i) A focus on linking and targeting learners participating in the Transitional Strategy to employment opportunities.

   (ii) Recognition that some external recruitment may be necessary to ensure that GN has the ability to deliver devolved programs and services on the Transfer Date.

   (iii) Recognition that recruitment exercises should be carried out in consideration of the fact that the intention of the parties is that learners will move into jobs once their training is completed.

(e) **Evaluation**: An approach for monitoring and evaluation of ongoing activities—allow for adjustments and course corrections if necessary.

(f) **Education, Training and Pre-Employment Initiatives**: Programming details, including training and accredited learning, on-the-job training, wrap around student supports, program promotion and management, including organizational structures overseeing program delivery.

Program Elements

9.11 The Transitional Strategy shall include the following program elements:
(a) **Training and Accredited Learning:** Pre-requisite training, expected to be delivered in Nunavut and led by Nunavut Arctic College, is targeted primarily at grade 12 graduates or candidates with generally equivalent qualifications, and shall include:

(i) training to obtain pre-requisites needed for entry into post-secondary programs; and

(ii) preparatory training to increase the level of readiness for entry into post-secondary programs.

For the purposes of the Transitional Strategy, post-secondary programs shall include a College or University Diploma, Certificate or Degree.

(b) **On-the-Job Training:** The Transitional Strategy shall include a variety of on-the-job types of training initiatives, including those for learners participating in training programs (e.g. co-op or summer student placements), and those for current workers to obtain skills, experience and confidence to advance to other positions (e.g. internships, internal assignments, mentorships, secondments, interchanges, professional development).

(c) **Student Support:** The Transitional Strategy shall include human and financial resources dedicated to maximizing student success, developing the human resource capacity needed, and recruiting Inuit into positions or into training programs to gain the necessary skills required for more skilled positions, by providing for guidance and support in areas including targeted recruitment, financial assistance, tutoring, non-academic supports, customized education plans, and participant tracking.

(d) **Program Promotion:** The Transitional Strategy shall include human and financial resources for the overall marketing and promotion of programs, active participant recruiting, and the development of a communications strategy. Marketing, promotion, and recruitment shall involve collaboration with high schools, hamlets, community groups, Nunavut Arctic College, GN departments, and other organizations.

**Post-Devolution Human Resources Development Strategy**

9.12 The Devolution Agreement shall contain a chapter that provides for the continuation of human resources development, training and support following the Transfer Date through the Post-Devolution Strategy. In support of the Post-Devolution Strategy, the chapter shall establish a joint review by GN and NTI to assess the implementation of the Transitional Strategy by assessing goals accomplished and determining continuing requirements for human resources development, training and support.

9.13 The Post-Devolution Strategy shall:
(a) be funded from the funds committed by the GN in section 12.19;

(b) include a plan and budget for continuing human resources development, training and support after the Transfer Date; and

(c) include mechanisms, including benchmarks, to help with any review pursuant to 9.9.

CHAPTER 10
AFFECTED FEDERAL EMPLOYEES

Objective

10.1 The objective of this Chapter 10 is to maximize the acceptance of job offers from the GN by Affected Federal Employees.

Relationship to Chapter 9 Human Resource Development

10.2 Nothing in Chapter 9 shall be construed so as to abrogate or derogate from the rights or obligations of the Parties pursuant to this chapter.

Cooperation

10.3 The GC and the GN agree to work cooperatively during the period between the signing of this AIP and the Transfer Date to ensure the orderly management of human resources matters referred to in this chapter, with such cooperation to include the establishment, as soon as practicable after the signing of this AIP, of a human resources transitional working group ("Affected Federal Employees Working Group") comprised of representatives from each of the Parties.

10.4 The Affected Federal Employees Working Group shall develop a human resources transitional work plan ("Affected Federal Employees Work Plan") to ensure the effective management of human resource matters referred to in this chapter. The Affected Federal Employees Work Plan shall set out the nature, timing and responsible government in respect of activities to be undertaken between this AIP and the Transfer Date to effect the transition to the GN of Affected Federal Employees who accept the job offers from the GN referred to in section 10.11, including information sharing and communication with GC employees in devolvable positions in respect of prospective employment with the GN.

10.5 As soon as practicable after the signing of this AIP, the GC shall, subject to any privacy restrictions, provide the GN and NTI, for the purposes of human resource planning and organizational design, with the following information:

(a) the location, Qualification Standards, work description and associated group and level of NAO and CNGO positions related to the administration and control of Public Lands and rights in respect of Waters;

(b) a description of the benefits package and salary range allocated to each NAO and CNGO position related to the administration and control of Public Lands and rights in respect of Waters; and

(c) a breakdown of which NAO and CNGO positions related to the administration and control of Public Lands and rights in respect of Waters are currently occupied and which are vacant.
10.6 When providing the information referred to in 10.5, the GC shall, to the extent permitted by applicable privacy restrictions, seek to provide the GN and NTI with the number, location, Qualification Standards, work description and associated group and level of NAO and CNGO positions related to the administration and control of Public Lands and rights in respect of Waters that are filled by Inuit.

10.7 The Devolution Agreement shall provide that no later than one year prior to the Transfer Date, the GC shall, subject to any privacy restrictions, provide the GN and NTI with the location, Qualification Standards, work description and associated group and level of NAO and CNGO positions in Nunavut related to the administration and control of Public Lands and rights in respect of Waters that are encumbered but are anticipated by the GC not to be effectively occupied on the Transfer Date due to some form of leave or accommodation. The GC shall provide the GN and NTI with updates to such information until the Transfer Date. The Affected Federal Employees Work Plan shall address the treatment of Affected Federal Employees who are anticipated to be on some form of leave or accommodation on the Transfer Date.

10.8 As soon as practicable after the signing of this AIP, the GN shall develop its preliminary organizational structure and provide it to the other Parties.

**GN Organizational Design**

10.9 The Parties acknowledge that the design of the GN organizational structure is an important dimension of human resources planning in relation to Affected Federal Employees.

10.10 The GC agrees to inform the GN and NTI of any organizational changes materially affecting the administration and control of Public Lands and rights in respect of Waters prior to the Transfer Date, including any of the following changes to an NAO or CNGO position related to the administration and control of Public Lands and rights in respect of Waters:

   (a) changes to the location of the position;

10.11 Every full-time Affected Federal Employee shall receive an offer of full-time indeterminate employment from the GN and every part-time Affected Federal Employee shall receive an offer of not less than equivalent part-time indeterminate employment from the GN, and such offer of employment shall be made at a date to be agreed to by the GC and the GN so that the date the offer is received by each Affected Federal Employee is no later than 6 months prior to the Transfer Date.
10.12 The GC shall, subject to any privacy restrictions, provide to the GN information necessary for the purposes of preparing the job offers referred to in section 10.11.

10.13 The information referred to in section 10.12 shall be provided by the GC to the GN no later than 12 months prior to the Transfer Date and updated information shall be provided by the GC to the GN as necessary prior to the date of the job offers referred to in section 10.11.

10.14 Recognizing the structural and operational differences between the GN and the GC, the GN shall, to the degree practicable, create positions within the positions created as a result of Devolution that are substantively similar to the functions and authorities of the positions of Affected Federal Employees immediately prior to the offer of employment described herein.

10.15 GN offers of employment to each Affected Federal Employee shall:

10.16 Where an Affected Federal Employee is, at the Transfer Date, residing in a Transferred Staff Housing Unit the GN shall, at the Transfer Date, make available such Transferred Staff Housing Unit to such Affected Federal Employee.
10.17 Subject to 10.16, the GN shall ensure, to the degree practicable, that the terms of agreement for the rental of the Staff Housing Unit in place between the GC and the Affected Federal Employee prior to the Transfer Date, are made available to such Affected Federal Employee by the GN immediately after the Transfer Date.

10.18 Whereas the rental amount for the Transferred Staff Housing Unit shall be determined in accordance with the general policies of the GN, the GN shall ensure that where this change results in a difference in the rental amount payable by an Affected Federal Employee, that difference shall be accounted for in determining the salary, benefits and other amounts offered by the GN to the Affected Federal Employee immediately after the Transfer Date in accordance with subsection 10.15(e).

10.19 The GC and the GN shall determine prior to the signing of the Devolution Agreement:

(a) the Federal Compensation to which each Affected Federal Employee will be entitled immediately prior to the Transfer Date and the salary as calculated pursuant to the GN Pay System and those GN benefits and other amounts to which each Affected Federal Employee will be entitled immediately after the Transfer Date; and

(b) the form, duration, and amount of salary, benefits, and other amounts to be offered by the GN to each Affected Federal Employee in order to meet the requirements of subsection 10.15(e) and section 10.18.

10.20 For the purposes of subsection 10.15(e), any relocation benefits or severance payment entitlements of an Affected Federal Employee are not to be taken into account in determining the monetary value of the salary and benefits of an Affected Federal Employee immediately prior to the Transfer Date.

10.21 Each Affected Federal Employee shall have 60 calendar days to accept in writing the offer of employment referred to in section 10.11.

10.22 Each Affected Federal Employee who accepts an offer of employment from the GN referred to in section 10.11 shall:

as of the Transfer Date, be entitled to GN benefits based on the aggregate of that employee’s:

(i) Federal Service, and

(ii) continuous employment with the GN after the Transfer Date;

(d) on the Transfer Date, be advanced by the GN one year’s entitlement of vacation leave, calculated, where applicable, in accordance with the GN Collective Agreement, the GN Excluded Employees’ Handbook and the GN Senior Managers’ Handbook, on the basis of that employee’s Federal Service;

(e) on the Transfer Date, in addition to vacation leave advanced under subsection 10.22(d), be credited by the GN with vacation leave credits equal to the federal vacation leave credits earned and unused by the Affected Federal Employee immediately prior to the Transfer Date, up to a maximum of one year’s entitlement of vacation leave credits determined at the applicable GN accrual rate; and

(f) as of the Transfer Date, be entitled to sick leave credits equal to the amount of earned and unused sick leave available to the Devolved Federal Employee immediately prior to the Transfer Date, and begin to accrue sick leave in accordance with, where applicable, the GN Collective Agreement, the GN Excluded Employees’ Handbook and the Senior Managers’ Handbook.

10.23 Each Affected Federal Employee’s unused federal vacation leave credits in excess of those referred to in subsection 10.22(e) shall be paid out in full by the GC to that Affected Federal Employee upon his or her termination by the GC.

10.25 With respect to pension plans and for the purposes of the Public Service Superannuation Act (Canada), the employment of each Affected Federal Employee who accepts an offer of employment from the GN shall be deemed not to be interrupted by reason of that employee’s termination of employment with the GC as a result of devolution.

10.26 Without obligations of any kind on the GC or the GN, the GN shall consider offering employment to each Federal Term Employee who will be terminated on the Transfer Date as a result of devolution.
