RESOURCE SERVICES
2015-16

CATALOGUE
How to use this catalogue

All of the books in this catalogue have been organized into Strands to conform to Nunavut curriculum. There is an explanation of the Strands on pages 4, 5 and 6.

Each entry gives:

- the title of the book
- the Strand (Uqausiliriniq)
- the subject area within the strand (e.g. Art)
- the level (e.g. Primary)
- the catalogue number
- the price

The catalogue number tells you which region of Nunavut the book comes from:

Q – Qikiqtani
K – Kivalliq
K – Kitikmeot

Books from Resource Services are distributed free of charge to all schools and libraries in Nunavut. They are shipped once a year, usually in the autumn. Please contact Resource Services if you want to adjust the quantity of books shipped to your school or if you wish to replace older titles.

Book prices apply to orders which are not from Nunavut schools or libraries.
How to order books

Some of the books in this catalogue are no longer available (they are marked). We are continuing to list them in case teachers might wish to look for missing books in their schools or to ask other schools for copies.

To order books please contact:

EDUResources@gov.nu.ca

EDUResources@gov.nu.ca
Curriculum content strands and competencies

The Inuit Qaujimajatuqangit strands are integrated and are described across the curriculum. The strands and competencies are designed to focus on the development of complex intellectual (metacognitive) skills and lead students to transformational ways of thinking and processing. This type of approach helps students to understand the connections between various learnings and the strategies that lead to successful application of learning in new contexts. These strands are identified in terms of their content areas and the key principles that will be developed through each Inuit Qaujimajatuqangit Education Framework for Nunavut Curriculum.

The Teaching and Learning Centre books are organized in strands to reflect the way curriculum is being developed. All Language Arts books are under Uqausiliriniq, all Science and Social Studies books are under Nunavusiuitit, all Health books are under Aulajaaqutut, all IQ books are under Inuuqatigiit and all Math are under Iqqaqqaukkaringniq.
All about strands

Nunavusiutit

All about Nunavut for Nunavummiut: history, geography, environmental science, understanding our relationship to the land survival, political history, economics, circumpolar issues, different world views, global perspectives.

Uqausiliriniq

All about communication: language and relationships with others: literacy, speaking, listenship, presenting, reading, creating, viewing/observing, valuing, bilingualism. Creativity and artistry are also viewed as ways of communicating.

Iqqaqqaukkaringniq

All about math: innovation and technology: ways of describing and improving our world, conceptual fields and contexts for development, ethical issues, using processes and procedures, seeking solutions and proposing explanations.

Aulajaaqtut

All about wellness: mental, social, emotional, spiritual, relationships, physical health, intellectual, personal responsibilities, volunteerism, careers, goals, dreams, safety and survival.
